

## Forum Obtains NYA Project For Curb Work

**High School Boys To Beautify  
Strips Between Sidewalks And  
Streets, It Is Announced**

The National Youth Administration has given Mr. W. F. Tidwell, high school principal, assurance that funds will be made available to pay a group of boys to work on the Town Forum's curb beautification program. Mr. Tidwell has offered to have the high school cooperate with the Forum's program. Mr. Irvin Jones-Williams, chairman of the Curb Beautification Committee says that we may expect the boys to begin work within the next two weeks, providing the project is given final approval by NYA officials. Mr. Stanley Mahan says that the town truck can be made available to help with this work.

With this unusual opportunity in sight, the Curb Beautification Committee wishes to request all citizens to do what they can to further the program. The NYA boys cannot improve all curbs at once. If each citizen will make himself responsible for trimming the curb strips which are already well leveled, the appearance of Montevallo can be improved in a short time.

The committee wishes to clarify a misconception that seems to be held by some citizens. The curb strips are legally public property, but it has always been the policy of the Town Council to entrust the care of the strip in front of each lot to the property owner. This policy is followed as a means of allowing each owner to develop his property as he wishes. The committee is anxious to hear from all owners who would like to have the curb strips in front of their property improved.

## Mrs. Kent Honored With Tea Shower

Mrs. Earl V. Rutledge was hostess Thursday evening honoring Mrs. Douglass Kent (Ninia Winslett) of Siluria, a recent bride, at a miscellaneous tea shower.

Mrs. Rutledge greeted her guests in a gown of powder blue. She wore a corsage of tuberose. Mrs. Kent wore a white moire taffeta dress with basque bodice and a sweetheart neckline. Mrs. R. W. Kent, mother of the bridegroom, was in pink alpaca sheer crepe. Mrs. Riley Kent of Birmingham wore a blue lace dress while she assisted in receiving.

Miss Margaret Kent kept the bride's book.

Miss Elma Winslett took the guests from the receiving line to the tea table, where Mrs. A. L. Scott and Mrs. W. O. Sellers of Birmingham presided. The tea table was centered with a crystal bowl of astors and sweetheart roses in pastel colors. On either side crystal candle holders held white burning tapers. Others assisting in the dining room were Miss Bobbie Kent of Birmingham and Lillian Rutledge.

Mrs. Warren Kent displayed the gifts. Eighty-five guests were invited to call between the hours of 7 and 9 p.m.

### BAPTIST CHURCH

"The More Earnest Heed" will be the pastor's theme for the Sunday morning sermon. At 7:30 Sunday evening he will speak on "Buying Up the Opportunity." Sunday School will meet at 9:45 a.m., and the Baptist Training Union at 6:45 p.m. We extend a cordial invitation to all who will to worship with us.

## Columnist

JOHN TEMPLE GRAVES II

## Noted Columnist To Speak Here

On next Tuesday evening at 8:15 in Palmer Auditorium, Mr. John Temple Graves II, distinguished lecturer, author, and columnist, will speak at a convocation extraordinary for the students of Alabama College. The people of Montevallo are cordially invited by President Harman to hear Mr. Graves' talk.

He is a man who has been hailed as one of the ablest interpreters of the New South. Liberal-minded, and one of Alabama's best informed publicists, Mr. Graves has been accorded high praise for his enlightened writings and speeches on many phases of the South as it is today.

He has been awarded honorary degrees by a number of the leading institutions of higher learning in the South, has appeared on the New York Town Hall program, and has a special appeal for college audiences wherever he has spoken.

### CHURCH OF CHRIST

Sunday School, 10 a.m.  
Preaching service, 11 a.m.  
Sunday School and preaching service will be held every Sunday during the school year in the Girl Scout House. The public is cordially invited.

## Miss Frances Kroell And Michael Haile Are Married In Impressive Ceremony

### Mrs. Sharp Honors Mrs. Harman With Tea

Mrs. C. G. Sharp entertained Friday afternoon, August 30, at her home with a seated tea, honoring Mrs. Fuller Harman of Wilmington, N. C., guest of Mrs. A. F. Harman.

The living room and porch were beautifully decorated with summer flowers. The punch bowl was presided over by Mrs. Walter H. Trumbauer. The table was covered with a Viennese lace cover. Mrs. Robert Holcomb and Mrs. W. D. Jackson assisted in serving. Several piano selections were played by Mrs. Robert Hendrick.

The guest list of this lovely affair included Mrs. T. H. Napier, Mrs. E. H. Wills, Mrs. E. D. Reynolds, Misses Georgia Leeper, Martha Lee, Eloise and Mildred Meroney, Mrs. F. P. Givhan, Misses Melba Griffin, Katherine Farrah, Elizabeth Stockton, Mrs. Frances M. Peterson, Mrs. W. J. Kennerly, Mrs. A. C. Anderson, Mrs. W. F. Tidwell, Miss Myrtle Brooke, Mrs. Guy L. Chamberlin, Mrs. E. G. Givhan, Mrs. J. I. Riddle, Mrs. Isobel Bruce, Mrs. Rachel Campbell, Mrs. Stanley White, and Mrs. A. F. Harman.

## Freshmen Ready To Begin Classes After Orientation

With the new freshman class settling to their fourth and final day of an intensive orientation program, students at Alabama College were in readiness for a beginning of class work tomorrow at 8 a.m. New students, who began arriving last week end and early this week, have been kept busy by the Orientation Committee composed of the Student Government Association, the Student Senate, the Y. W. C. A., the Recreational Association, the Presidents' Council, and the Publications Board.

Entertainment for the newcomers has consisted of a movie party Monday night, splash parties in the college pool, and a hike and picnic at the college camp house. Supper was served at the camp house, sponsored by the Recreational Association and cooperating groups.

The several churches of Montevallo held receptions on Tuesday night for the freshmen and transfer students at the various churches. Tonight there will be a Sis-Major-Sis-Minor party sponsored by the Y. W. C. A. For this party each freshman is given the name of an upperclassman who is to be her Sis-major. The Sis-major takes the Sis-minor to the party and also helps her through the first few weeks of school.

Friday night the class of '44 will be introduced to the traditional step singing, so long a part of student life at Alabama College. On Friday at noon there will be an all-student convocation, with President A. F. Harman presiding, at which time the new faculty members and local pastors will be presented. Wind-up of a busy week comes Saturday at 8 p.m. when the Student Government Association presents "Glimpses of College Life" in Palmer Auditorium for the benefit of the freshmen. The faculty, upperclassmen, and the public are invited to attend.

The first Sunday of the new term will be featured by the Y. W. C. A. annual induction services. Young people's groups at all the churches will hold organization meetings at 6:30 p.m.

Mr. Houston Adams of Birmingham spent the week end here.

Miss Louise Crowe of Porter was the week end guest of her aunt, Mrs. A. L. Crowe.

The marriage of Miss Frances Kroell of Montgomery, formerly of Montevallo, to Michael J. Haile, Jr., of Montgomery and Shamokin, Pa., was an interesting social event to the bride's many friends here.

The ceremony took place Sunday evening, September 1, at 6 o'clock, at the Trinity Presbyterian Church with the Rev. Donald C. MacGuire officiating. Southern smilax, wood-wardias fern and white chrysanthemums formed the floral background for the service, and seven branched candelabra with white tapers lent brilliance to the simplicity of the decorations. Pews reserved for the close friends of the couple were marked with tulle and satin ribbons.

The musical program was presented by Mrs. J. H. Walker, organist, and Mrs. Walter M. Anderson, Jr., soprano. Mrs. Walker played "Clair de Lune," "Prelude" by Chopin, and "To an Evening Star" from "Tannhauser," by Wagner; Mrs. Anderson sang "Ave Maria" by Gounod, and "Because" by d'Hardoet.

The bride was given in marriage by her brother, Mr. Walton Kroell. The bride's gown of ivory moon-dream taffeta was made with tight fitted bosque bodice, with shirred

## Another Mass Meeting Called To Nominate Town Officials

### Mass Meeting

To the Citizens of Montevallo:

In order to comply with the provisions of the Conway Act regulating municipal elections, which act requires that nominees or candidates for places on the Town Council be nominated and qualified for specific places on the Council, as Place No. 1, Place No. 2, etc., a mass meeting of the citizens, voters, and taxpayers of the Town of Montevallo is hereby called, by order of the Mayor and Council, to meet Thursday evening, September 5, at 8 o'clock, in the auditorium of the Baptist Church, for the purpose of making nominations for town officials in accordance with the provisions of the aforesaid Conway Act.

CHAS. T. ACKER,  
Mayor  
C. M. GARDNER,  
Town Clerk

## Atchison-Williams Marriage Solemnized At Underwood

The marriage of Miss Mildred Eleanor Atchison and Otis Clayton Williams was solemnized Thursday, August 29, at 8 p.m. at the Underwood Baptist Church.

The Rev. J. W. Jones of Columbiana read the vows before an altar banked with ferns, white gladioli, and burning tapers. Prayer was given by the Rev. D. Z. Woolley of Columbiana.

The bride, given in marriage by her father, wore an ensemble of soldier blue and carried an arm bouquet of white roses. Miss Kathleen Dodd of Boaz served as maid-of-honor. Ring bearer was Annette Thompson of Columbiana.

Ray Morris Atchison, brother of the bride, was best man. Ray Kirkpatrick of Underwood and Henry Peete of Siluria served as ushers.

Mrs. Williams is the daughter of Mr. and Mrs. E. W. Atchison of Underwood, formerly of Columbiana. She attended Shelby County High School and Alabama College. She will hold a position in the schools of Shelby County.

The groom is a son of Mrs. W. B. Vernon of Underwood. He is now a student at Howard College.

The couple will be at home in Helena.

### MRS. LATHAM OBSERVES HER 80TH BIRTHDAY

Mrs. Sallie Latham observed her 80th birthday Saturday, August 31. During her many years as a resident of our town she has been a friend to everyone and has lived both a beautiful and useful life. Mrs. Latham is in comparatively good health. In her younger years she was a faithful worker in the Baptist Church and in civic affairs. Her many friends know her as "Grandma Latham." Saturday was a happy day for her, bringing gifts and congratulatory letters and best wishes from many points in Alabama, Tennessee, and Louisiana.

Mrs. Latham is still interested in world affairs. We take this opportunity to extend our wishes for many more happy birthdays for you, "Grandma."

Mr. and Mrs. Henry Ben Wood of Troy, Mr. and Mrs. John Kroell of Alabaster and Mr. Frank Kroell of Mobile were the holiday guests of their aunts, Miss Kate Kroell and Mrs. Mary Creagh.

### State Law Governing Municipal Elections Sets Requirements To Be Met In Naming Candidates

By order of the Mayor and Council of the Town of Montevallo, another mass meeting is called for tonight, Thursday, September 5, for the purpose of nominating candidates for town officials in accordance with the Conway Act, a new state law governing the nomination and election of such officials.

Official notice of the called mass meeting is given by the Mayor and Council in this issue of The Times.

Mayor Acker urges all citizens who are interested in the town government to be present at this meeting.

"The small attendance of less than 20 citizens which met at the mass meeting August 16," he said, "could not be termed representative of the more than 200 voters in the town."

"While the meeting was legal in that due notice was given, there seems to be a great deal of dissatisfaction because of the small number of candidates nominated."

Continuing his statement, the Mayor said, "It appears that the citizens of the town want to have more candidates nominated in order that there may be a wider choice for those who will cast their ballots in the election of September 16. In order to make possible this wider choice, and further, in order to comply with the regulations of the state municipal election law known as the Conway Act, this second mass meeting is called for Thursday night. The Town Council sincerely hopes that all citizens will attend the meeting, express themselves, and thus assure that the action of the meeting will be representative of the citizens of the town who are qualified to participate in the election of their officials."

## Donald Vaughan Is Awarded Eagle Scout Badge

Donald Vaughan is the first Boy Scout to reach the rank of Eagle Scout in the history of Scouting in Shelby County. He was awarded the Eagle badge at a ceremony held last Friday night at the Montevallo High School.

The program was held under the auspices of the Shelby County District of the Black Warrior Council.

Mr. J. L. Appleton, chairman of the county district, presided. Scout Executive John Coats, of the Black Warrior Council, made the award.

After reading a letter to Donald from the National Scout Executive, Mr. Coats placed the Eagle trophy in the hands of Dr. W. D. Jackson, local Scoutmaster. Dr. Jackson gave the badge to Donald's mother, who pinned it on her son.

Short talks were made by Dr. T. H. Napier, representing the Civic Club, and Mack Wyatt, representing the local troop committee.

A large representation of Girl Scouts lent the grace of their attendance to the occasion. Boy Scouts of Montevallo, Wilton, and Wilsonville attended.

At the conclusion of the program Donald Vaughan, recipient of the Eagle badge, made a short statement which was impressively conveyed in words well-chosen and beautifully suited to the occasion.

Mr. and Mrs. J. A. Brown and Mr. James Higgins have returned to their home after a vacation in New York City.

Mr. and Mrs. T. Whitten and baby, Donna Jean, spent several days of last week with relatives in Birmingham.

## THESE ARE MY JEWELS

## A Greater Alabama College

It is not merely force of habit to say that Alabama College opened this week with the most promising prospects of any year in its history. It is an actual fact, because at no time in the past has this institution begun a session with such physical facilities as it now enjoys. Full use of the new buildings, others enlarged and improved, makes everyone approach the session with a feeling that the greater college will mean more pleasant and more profitable work.

The new buildings were used a part of last year, but this year they will, from the very beginning of the session, shed the full-blown beauty of their arrangement, and convenience to the enjoyment of everyone on the campus.

Much as is the pleasure of students and faculty who will use these new facilities, their pleasure does not exceed the gratification of the administration whose arduous task it has been to plan and execute this unparalleled period of expansion.

President Harman has had a ceaseless and determined desire to build Alabama College into an institution more able to fill the desires of Alabama women who looked this way for their college training. His success has been most notable. Enlarging upon the foundation made by those who have gone before him, we behold his good work, his wise planning, and we declare it good indeed.

Alabama is proud of its State College for Women. Montevallo is glad to be known throughout the state as the home of this great institution that is held in such high esteem by our fellow citizens in every part of the commonwealth.

## Death In Mexico

A man named Leon Trotsky was murdered in Mexico City the other day. His death teaches no lesson except that those who live by violence usually perish by violence. But his life carries its moral for all Americans and all men of good will to read.

Perhaps more than any other individual of our times, Trotsky represented the view that theories of government could be applied wholesale and made to change the economic habits of single countries and then, ultimately, of the whole world. He preached destruction of existing systems, promising that after the old ways had been discarded the new ways that replaced them would mean "a heaven on earth" for all the earth's people. But the only part of Trotsky's program that bore real fruit was the destructive one.

What is the lesson involved? Surely it is this:

Theorists invariably feel that if they had their way they could remake society in very short order. It is their conception that the end justifies any means. They are not content with the slow progress of peaceful business and commerce, wherein through orderly production the number of goods and services used by the average person is steadily increased. Out of books and theories, they want to change everything in a single day.

All theorists are not as ruthless and inhuman as was Trotsky. But all are more or less victims of the same poison; all are willing to destroy instead of produce, feeling that after the "class struggles" and the regimentation and the wreckage are over, they can build a perfect society.

Trotsky lived long enough to see the world chaos that his theories achieved. He was probably too sure of his own genius to admit his error. But Americans can see the tragic results of his way—and are not likely to succumb easily to the argument that "the end justifies the means!"

The Republican Party did a great honor to Mr. Willkie when it nominated him for president, but this old working Democrat did the Republican Party an even greater favor when he accepted the nomination. He salvaged it, even though it now seems unlikely that he can restore it to power.—Montgomery Advertiser.

## The Man On the Corner

—Some of the things he saw and some he saw not.

### Wooten's New Building

The new building of Wooten Motor Co, local Ford dealers, is going ahead again this week, after some days delay waiting for structural steel. It will not be long now until Contractor Curry Norris will have the job completed.

### Dr. Napoleon Johnson

The death of Dr. Napoleon Johnson, of Clanton, came during the past week. His passing removes a beloved figure in Alabama medicine. He was one of a family of doctors. Before him was his father, Dr. Sam Johnson, a Clanton pioneer. Three of his sons, Napoleon, Arthur, and Sam, followed him in his profession. Now only the youngest son, Sam, remains. He has been in the United States naval medical service for a long time.

### No More Thursday Closing

Our season of fun and frolicking on Thursday afternoons is over now until next summer. It will be work for everybody from now on, and we hope plenty of it, too. Soon will come the frost, then the rains and cold days, with perhaps a spell of snow. The fires will be to build, the coal to buy, and many other things that go to make up the "good old winter time."

### We Get a Project

Montevallo people will be glad to see the announcement this week that the Town Forum has already stirred up one most laudable project that gives promise of some immediate results. There are, perhaps, many possibilities of like kind floating around. To find a few of them and grab is one of the functions of the Forum.

### Auburn's Good Newspaper

We are in receipt of a copy of The Lee County Bulletin, published at Auburn. It is a good newspaper—one of the most attractively printed specimens among Alabama's papers. Editor Neil Davis is doing a fine job in a new field which he entered only a few years ago. Auburn, having so many good things, one might ask, "Why not a good newspaper, too?" The Lee County Bulletin certainly fills the bill.

### B. B. Nix, Farmer

Mr. B. B. Nix, our neighbor farmer on the north side of town, was here Tuesday morning. He advertises a cow and calf, seed wheat and new sorghum syrup for sale. It is, we think, not stretching our hopes too far to say that Montevallo should be a place where men like Mr. Nix could bring their wheat and syrup to market and sell it for cash. If such were true, we would have more and better farmers around Montevallo.

### THE CHEER LEADER

Out at the game I first saw her—  
Cheer leader of Musketeers Park—  
With her winsome, heart-warming smile  
That would light up even the dark!

After that I found myself watching  
For that smile from her radiant soul,  
As with eager, confident cheer  
She urged her team to its goal.

Never once did that smile fail me,  
And I found her always the same;  
In high school or college she wore it

And played her same happy game!

The Master has changed her setting  
To His own big streamlined park;  
And our joyous, smiling cheer leader  
Has become Heaven's own sky lark.

Now pondering all to myself  
I feel that her smile lives on  
Reflected in the faces of others  
Like the rosy glow of the dawn.

## THE POCKETBOOK of KNOWLEDGE BY TOPPS

1920  
COSTS  
1940

A 100-WATT ELECTRIC LIGHT BULB TODAY COSTS ABOUT 1/10 AS MUCH AS 20 YEARS AGO

TAXES PAID BY THE PAPER INDUSTRY NOW EQUAL 22% OF THE HOURLY WAGES EARNED BY ITS WORKERS

A NEW RESEARCH DEVELOPMENT IS GAS STORAGE FOR APPLES TO KEEP THEM FRESH TILL SPRING

NEW PLASTICS MADE FROM SUGAR CANE - SUPPOSED TO COST 4 1/2 CENTS A POUND - CAN BE TURNED TO INDUSTRIAL USES THAT WILL WIDEN THE FARM MARKET

IN THE LAST CENTURY, WHEN GRAPEFRUIT WERE CONSIDERED OF NO VALUE, THEY WERE TAKEN ON TRADING VESSELS IN THE TROPICS MERELY FOR BALLAST WHEN THE HOLD WAS EMPTY

## One Nation . . . Indivisible

They look different—the different parts of this country. The elm-shaded streets of old New England towns are not at all like the wind-blown streets of the prairie villages. The square white houses topped with "captain's walks" of seaport settlements have an atmosphere about them that is altogether lacking in the new stucco houses of the Southwest.

But underneath and through it all is something stronger than these differences; something more potent than the fascinating variety. And that is—the sameness!

Everywhere you go, from Maine to California, we are, first and foremost and above all, Americans. We are nourished by the same traditions—stirred by the same impulses—inspired by the same ideals and, to be mundane and practical, served by the same producers.

A 10-cent store on the street of a town built by sea-faring Yankees in the 18th century even smell the same as a 10-cent store on the street of a western oil town that sprang up a dozen years ago. Looking at the familiar displays in a drugstore window you feel yourself "at home" no matter where you are or what part of the country you hail from.

Monotonous? Stereotyped? Maybe. There might be more color to the American scene if there were great

sectional differences and regional cultures. But there would not be the strength, the similarity of outlook and the possibility for national unity such as the world has never known, without this national uniformity.

If the good people of Connecticut ate a breakfast food the good people of Nebraska had never heard of . . . if the movie stars of Hollywood had a face cream unknown to the ladies of New York . . . and if the people of South Carolina drove cars strange to Michigan, this country couldn't be what it is today and will be tomorrow.

Eating the same foods . . . using the same face powder . . . wearing the same clothes . . . using the same vacuum cleaners . . . driving the same cars, gives us an understanding of each other that has nothing to do with distance or climate or historical background.

So it is our manufacturers, as well as our writers and statesmen and educators, that make us one people. For by producing goods for Americans as a whole and by a unique system of distribution they are able to sell them in every city, town and village throughout this far-flung land.

Thus are we united by our everyday habits of living, as well as by our ideals of Liberty!

## Reader Offers Suggestion About Cemetery

Montevallo's sacred acres are the most neglected spot in the entire township. This cemetery could be and should be made into a place of restful beauty.

One reason the place is so neglected is, the gates to the driveways are always locked, making it inconvenient to get implements into the lots to keep them in neat order. Ladies find it difficult to attempt walking from the gate to their lots, the driveway being so rough and washed out.

Why can't these gates be left open? Cemeteries even miles in the country are open and, incidentally, are kept in good condition. Let's get behind this important project.

—A READER

Mr. Clyde J. Davis of Montgomery spent Saturday night and Sunday with friends in Montevallo. Mr. Davis worked here with The Times during 1936 and 1937. He is now with the State Planning Commission. "Montgomery is still reasonably safe for the Democratic ticket," he reports.

### Politics

Near his private lake at Woodglen, N. J., E. D. ## Report of 4-H Leadership Camp At Auburn

By Sarah Mattie Wyatt  
Siluria Club

Since I was chosen as one of the five delegates to represent Shelby County at the 4-H Leadership Camp, Auburn, July 8-13, I feel that I should pass a few notes of interest to my fellow club members in order that they may understand the good derived from this camp.

So to you members I hope to list a few notes of importance. Among our speakers and their topic were Dr. L. N. Duncan, president, Alabama Polytechnic Institute, "The Need for Trained Youth;" Dr. Rosa Lee Walston, "Choosing a Vocation;" Mr. P. O. Davis, "The Challenge to Youth;" and Miss Etna McGaugh, "Farming as a Way of Life."

We shall be leaders of our America of tomorrow, solving the complex problems of public demand. There is no specific age when we should start planning our education for our future. It simply depends upon our ability, the sportsmanship, and our dependent responsibilities as a tactful boy or girl.

For choosing a vocation, find the actual facts and duties of it so that you may have actual pay for actual needs. Four needs for choosing a good vocation are (1) training yourself, (2) a good background,

(3) tact, (4) common sense for general preparation.

In the Challenge to Youth we have four ways to obtain riches, (1) land, (2) birth-rate, (3) little businesses, little corporations and big businesses, and (4) foreign trade. Half of the wealth of our world was produced in 151 years by living up to democratic ideals and developments.

As we grow and develop character, personality, good fellowship, and cheer, we shall then stand and work together as a family unit. Two values that we have in rural life are: (1) appreciation of beauty in things we see everyday, and (2) self-reliance in spiritual value.

As desirable features of farm life we have abundant living, opportunities in fellowship, development of happiness, health, and cheer, beauty and the pride and ownership of adventure and freedom. For training on the farm we have 4-H Clubs or agricultural and home training, home economics and responsibility.

A few points brought out by the Goals Committee were: (1) At least twelve counties in the state are to sponsor a radio program sometime during the coming year. (2) Each member must have and fully complete his project. (3) Each club should try to have a write-up of its meetings in a local paper if possible.

I hope that some one of you may have this same enjoyable trip to camp next year and learn as much as I think I did of how to become a better leader in the future.

Remember, "we reap what we sow," so let us sow the seeds for good leaders of sportsmanship in every possible activity.

Our public approves or criticizes our 4-H Club work by what we do, so let us continue to "Make the best better."

### ALABAMA LEADS WITH AUSTRIAN PEA ORDERS

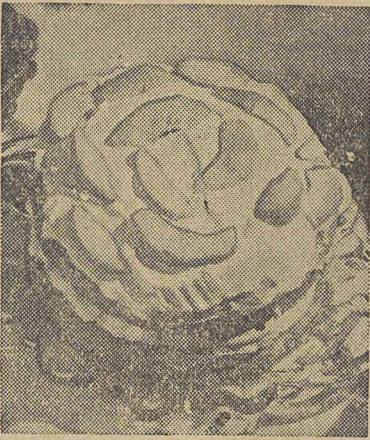

Auburn, Ala.—Alabama is leading all other states in the union in obtaining Austrian winter peas under the AAA grant-of-aid.

Latest figures show that Alabama farmers have ordered 11,666,700 pounds with prospects for 15,000,000 pounds ordered before the end of the legume planting season.

Two soil-building payments are available to Alabama farmers who sow Austrian winter peas this fall and turn under a good stand and a good growth or leave them on the land.

The 1940 agricultural conservation program makes \$1.50 available to each farmer seeding at least 30 pounds of Austrian winter peas per acre. An additional payment will be available under the 1941 program for turning under a good stand and a good growth secured from this year's seeding.

## Peach Cake Is Good Come-On

MAYBE it's an outing you want next Sunday, or help with the curtains.

Whatever you wish from your family, a special Peach Cake for dinner will help win it. For right-hand aid on this dessert, try the new self-rising flour now on the market. The new product has lots of advantages over the old self-rising flour, because action is slowed so that by the time your cake is mixed, the baking powder is only starting to work. Thus, you lose none of the "risin'" power.

Here is the recipe to try with the new flour:

### Peach Cake.

Cream 7 tablespoons or a scant ½ cup fat. Add ¾ cup sugar. Cream until sugar has dissolved. Add 1 egg and stir in thoroughly (do not beat). Add ½ cup milk and 1½ cups self-rising flour alternately. Add 1 teaspoon extract. Pour into a greased and floured cake pan, and bake in moderate oven (350 degrees F.) about 30 minutes. Whip 1 pint whipping cream and add ¼ cup sugar. Split the cake. Spread lower half with 1 cup crushed peaches and half the whipping cream. Add top layer, and pile with another cup of crushed peaches and remaining cream. Garnish with peach slices.

## BOOTHTON

(For Last Week)

Mr. and Mrs. Gordon Eddings spent Sunday afternoon as guests of Mr. and Mrs. Charlie Sanders of Wylam.

Mr. and Mrs. Clyde Ladner of Sayreton spent Sunday afternoon in Boothton.

Miss Annabelle Patterson is the guest of Mr. and Mrs. Ed Espey.

Mr. and Mrs. Albert Roland and Mr. and Mrs. Henry Mitchell spent the week end at Haleyville.

Mr. and Mrs. Jimmie Brasfield have returned to their home after a week's vacation.

Mr. and Mrs. Hugh Miller left Saturday for Arkadelphia, Arkansas, where they will make their home.

The members of the O. E. S. entertained their friends and families at an ice cream supper at the river Thursday evening.

Don DeMent, son of Mr. and Mrs. Jack DeMent, is ill at South Highlands Infirmary.

Mr. and Mrs. Jim Norris are spending their vacation in Tuscaloosa.

Mrs. Alice Harper is ill at the home of her daughter, Mrs. Bob Littlefield, Sr.

Mr. and Mrs. M. C. Lovelady spent Saturday in Piper.

### FOOD-LOCKER OPERATORS FORM NEW ORGANIZATION

Auburn, Ala.—Alabama has a new organization. It is the Alabama Frozen Food Lockers' Association.

Officers are: D. H. James, Enterprise, president; A. F. Norton, Tuscaloosa, vice-president; and Eric Alsbrook, Montgomery, secretary-treasurer.

The new organization is a non-profit association and was organized to aid in spreading information and to assist with legislative and regulatory problems pertaining to the frozen food industry.

## Governor Asks Aliens To Register

Montgomery, Ala.—For protection to themselves and to the nation in this time of stress, all aliens in Alabama are reminded anew by Governor Frank M. Dixon to register with post office officials before December 26, 1940.

In his latest announcement concerning the registration, Governor Dixon defines an alien as "one who was not born in the United States and who is not a naturalized citizen of the United States."

All aliens more than 14 years old must register and be finger-printed. All aliens younger than 14 years must be registered by their parents or guardians, but need not be finger-printed.

Any United States post office in Alabama can furnish proper blanks for this procedure. No fee will be charged for the service.

"This registration is considered a vital part of the program for national defense," said the Governor. "Its purpose is for the protection of our nation in this time of stress. Its effect will not only be of national benefit, but it will also be a benefit and a protection to the law-abiding aliens, of whom there are many in our country."

"I hereby call upon every alien in Alabama to respond promptly and cheerfully to the demand which our federal government is making for this registration."

### SINGING AT CALERA

The Central Alabama Singers will be held at Calera High School on Friday, September 8. Several good quartets and noted singers are expected to be present. All quartets and lovers of good music are cordially invited to come, bring their books, and help make this one of the best singings in Shelby County.

The first short course for Alabama freezer-locker plant operators in Auburn August 27 and 28 was an outstanding success with operators discussing freely their problems.

The production of fruits and vegetables in six southeastern states on a tonnage basis has increased more than 30 per cent in the last seven years.

## Methodists Hold Reception For Freshman Class

A most enjoyable occasion was held Tuesday night at the Methodist Church when the ladies of the church and the Wesley Foundation Council entertained for the freshmen and transfer students.

Miss Margaret Stallworth of Thomaston led the group in a number of favorite songs. Rev. J. M. Shores introduced Mr. C. V. Stabler and Mrs. J. M. Shores, advisers of the Wesley Foundation; and Miss Claudine McAdams of Millport, president of the Council, who in turn introduced other council members. Local church members present were also introduced.

Miss Dot Dunn of Camden led a number of games and stunts. Punch and cookies were served by Mrs. M. L. Orr, Mrs. T. H. Napier, Mrs. W. C. Weems, Mrs. W. D. Jackson, Mrs. Brewer Carpenter, Mrs. S. B. Brown, and Mrs. J. P. Kelly.

### MRS. PHILLIPS HONORS MRS. MYERS WITH PARTY

Mrs. N. R. Phillips entertained with an informal party Friday afternoon honoring her guest, Mrs. A. E. Myers of Baltimore, Md. During the appointed hours punch and sandwiches were served to the following guests: Mrs. G. T. Ellis, Mrs. M. P. Jeter, Mrs. R. A. Reid, Mrs. M. W. Fancher, Mrs. Pep Jeter, Mrs. Cary V. Stabler, Mrs. Helmers, Mrs. J. I. Reid, Mrs. Milton Jeter, Mrs. W. A. Harvey of Baltimore, the honoree and the hostess.

The first short course for Alabama freezer-locker plant operators in Auburn August 27 and 28 was an outstanding success with operators discussing freely their problems.

## Highway 31 In Shelby County To Be Improved

Montgomery, Ala.—Width of all bridges on the Montgomery-Birmingham highway (U. S. 31) through Shelby County, an important section of the north-south artery recently designated as a military highway, will be doubled under plans announced today by State Highway Director Chris J. Sherlock, Jr.

Present width of the five spans is 18 feet, and Director Sherlock said work of broadening them to 36 feet to facilitate movement of increasingly heavy traffic, would begin soon. He described the work a continuation of the "streamlining" program planned or already under way on U. S. 31 and several other major roads.

About November 1, the highway director continued, bids on the proposed four-lane bridge over Shades Creek, on the re-located Shades Mountain section of Highway 31, will be opened. That section of the route was re-located to eliminate many steep "hairpin" curves over the mountainous region.

The work in Shelby County will constitute the first of a series of many such projects on Alabama's highways during the next two and a half years, Director Sherlock added. The widened bridges will be of steel and concrete construction.

The production of fruits and vegetables in six southeastern states on a tonnage basis has increased more than 30 per cent in the last seven years.

## KIDANS STAGNATION IS WORSE THAN CONSTIPATION!

Because We Treat Constipation at The Onset, While We Neglect Our Kidneys Indefinitely

No other organ in your body is of more importance than your kidneys. For in your kidneys there are nine million tubes which must work day and night to filter the fluids and keep the system free from wastes, acids, poisons which, if permitted to remain, may cause serious kidney and bladder troubles.

It is no wonder then that Nature often calls for help to clean out the kidneys. So if you are troubled with Getting-Up-Nights, Leg Pains, Backache, Nervous Headache, Dizziness or Loss of Energy, due to functional kidney disorders, try KIDANS, the famous kidney remedy, which aids Nature to flush out the kidneys, to filter all wastes, to prevent kidney stagnation.

KIDANS is Safe and Reliable. Thousands report entire satisfaction. Taken according to directions, KIDANS will give splendid results. Try KIDANS. Buy it at our Special Price Offer on two boxes. Use one box. If not satisfied, return unopened box and GET YOUR MONEY BACK.

If your local druggist cannot supply you, send \$1.00 to The Kidans Company, Atlanta, Georgia, for two full-size boxes on a money-back guarantee.

Applications for parity payments are pouring into the Alabama AAA office from county offices. To date applications have been received from 30,000 farmers for nearly \$2,000,000. Approximately \$8,600,000 will be paid 190,000 farmers before the end of the season.

## New Dodge Will Feature Fluid Drive In 1941 Models

News Comes As A Surprise But Foreshadows Many Drive Demonstrations

Dodge will have Fluid Drive for 1941—according to information just received from factory headquarters in Detroit by G. T. Towery, local dealer.

"This news was a complete surprise," said Mr. Towery. "We did not expect to see this vital feature adopted so soon for a car in the popular price range of Dodge. But now that the news is out, we can promise the public an automobile driving sensation they will remember as the most exciting chapter in all their motoring experience."

"One of the really surprising things about the Dodge Fluid Drive, aside from the sensational ride it gives, is its mechanical simplicity. The Fluid Drive unit takes the place of the engine flywheel and consists of only two working parts—two bowl-shaped shells into which vanes or fins are welded. One shell is mounted on the engine crankshaft, the other on the drive shaft. Both shells, which do not touch each other, are enclosed in a sealed housing filled with oil.

"It is this oil which, set in motion by the turning of the forward shell, passes the power rotations to the rear shell and the drive shaft."

"Simple as the Fluid Drive mechanism is, the different driving results it produces are exceedingly interesting. You can climb a hill at

speeds as slow as a mile an hour with gears in 'high' and the car will keep going smoothly without straining the engine or any other mechanism.

"You can also stop the Fluid Drive car, leaving the transmission in 'high' without stalling the engine. You can start in 'high' without bucking, and drive all day, at any desired speed, slow or fast, without having to bother about shifting gears. You can do these and many other things, and in addition enjoy a smoothness in getaway, stopping and speed variation that is a downright revelation.

"Where the new Dodge Fluid Drive differs from most mechanical improvements is that its advantages can actually be experienced," Mr. Towery pointed out. "That is why we expect to have a busy time demonstrating the remarkable new drive to the people of this city from the moment the first Fluid Drive cars are received—which will be soon."

## Few Changes Are Made In Game Laws

Montgomery, Ala. — Regulations governing the hunting of domestic game birds and animals for the 1940-41 season, embodying few changes from last year, were announced this week by Dr. Walter B. Jones, conservation director. Squirrel, deer, rabbit and quail seasons and bag limits remain unchanged.

The open season on wild turkeys was reduced by 15 days, removing 10 days from the fall season and 5 days from the spring season. Turkey hunting this year will be from December 1 to December 31, and from March 20 to April 15, inclusive, with the bag limit at one a day and five a season.

While the deer season remained unchanged, all bucks taken must have pronged antlers, instead of just "antlers" as provided in last year's regulations. Of the game animals, the season was closed on bear, and the fox was removed from the game animals list some time ago. The opossum and raccoon may be hunted as game from October 1 to January 31.

The squirrel season north of Highway 80 is October 1-January 31, and south of the same highway, October 15-January 15, with a bag limit of 10 a day.

Trapping of beaver and otter is still prohibited this year, but the state was opened to muskrat trapping during December and January, with the exception of Mobile and Baldwin Counties, which remain closed.

Federal regulations for migratory game birds, such as ducks and geese, were announced two weeks ago. Summary of the regulations on resident, or domestic game birds and animals, follows:

Deer, (pronged antlered bucks only), 1 a day, 3 a season, November 20-December 31. Season closed until 1941 in Butler, Jefferson, Tuscaloosa, Walker Counties. Season determined each year by State Conservation Department and United States Forest Service in Morgan, Winston, Lawrence, Franklin, Cullman, Talladega, Calhoun, Clay, Cleburne, Bibb, Chilton, Perry, and that part of Dallas north of Highway 80.

Squirrel, 10 a day, north of U. S. Highway 80, October 1-January 1; south of U. S. Highway 80, October 15-January 15.

Opossum and raccoon (hunted as game), October 1-January 31. Civet cat, fox, mink, opossum, rabbit, raccoon, skunk, weasel (for fur), December 1-January 31.

Muskrat (for fur, except in Mobile and Baldwin Counties), December 1-January 31.

Rabbit, no bag limit (hunted with guns), October 1-February 20. Chukar partridge, no open season.

Doves, 12 a day or in possession, north of Highway 80, October 1-31 and December 20-January 31. South

of Highway 80, November 20-January 31.

Quail, 12 a day, November 20-February 20.

Turkey (gobbler only), 1 a day, 5 a season, December 1-December 31 and March 20-April 15.

Grouse, pheasant, and woodcock, no open season.

## Terracing School Is Planned By County Agent

On September 13 and 14 we have arranged a terracing school to be conducted on the farm of Arthur Milstead, near the L. & N. depot, Columbiana.

Proper terracing is the first step in soil conservation and soil building on every farm, and it is our purpose at this school to train men to plan a water disposal system, to use the terracing level, lay off terraces, to build terracing drags, and to make the proper outlets.

We need men in each community trained in this work so that they may help their neighbors at a reasonable cost to terrace the farms in the community. We hope a number of men from each community will spend each of the two days with us and learn to terrace land properly. It is a splendid opportunity for anyone to learn to do this work. Mr. J. B. Wilson, agricultural engineer from Auburn, will be with us.—A. A. Lauderdale, County Agent.

## CHURCH RECEPTION HELD FOR FRESHMEN

The annual reception for the Baptist freshmen at Alabama College was held at the church Tuesday evening. This is given to introduce the new students to the church members.

Dr. Fred B. Pearson gave the welcoming talk for the church as a whole. Dr. J. I. Riddle represented the Sunday School. The Missionary Society was represented by Mrs. J. L. Bridges. Mrs. J. I. Riddle gave a talk for the Y. W. A.

Games and contests were enjoyed by the entire group. At the close of the program, the Missionary Society served refreshments.

Election of county and community AAA committeemen will be held in Alabama in November prior to the beginning of the new program in December.

## LOCAL NEWS OF CALERA

The Baptist revival will continue through Wednesday night. Rev. John Coggins is doing the preaching.

School opened Tuesday morning. This year all grades will be taught, the Senior III grade having been added this year. There will be fifteen teachers in high school and the grammar grades.

The Unique Club will meet Tuesday afternoon at the home of Mrs. Fred Allen, with Mrs. P. H. Barnes as co-hostess. The topic will be legislation. Mrs. A. F. Seale will talk on park systems and Mrs. R. E. Bowdon, Jr., on stock laws, state and national.

The W. M. U. will meet at the Baptist Church at 3 o'clock Monday afternoon.

Mr. and Mrs. Austin of Florence drove down Saturday, bringing their daughter, Miss Marjorie Austin, who will teach in the Calera school.

Misses Mildred Houston, Ada and Zemina Holcombe visited their parents over the week end.

Mrs. R. H. Parker and Mary Sue visited in Talladega County last week. Billy spent several days in Sylacauga.

Mr. and Mrs. Billy Smith Wilson visited Calera this week end. Mrs. Wilson will teach this year at Maylene.

After a four weeks' visit to Detroit, Miss Tommie Tomlin is home again.

Mrs. Max Baer and Lillian are back home again after a visit to Mrs. Baer's mother, Mrs. Gardner, in Chicago.

Mrs. Judson Salter and children of Opelika are the guests of Mrs. Z. S. Cowart this week end.

Mr. and Mrs. John Doyle are moving to Birmingham this week.

The Shelby zone meeting will be held in Calera Thursday, September 5, at the Methodist Church. A large attendance is expected.

Mr. and Mrs. G. S. Wilson are moving to Childersburg. The convict camp has been moved to Childersburg and so a number of families will have to go. Calera will be sorry to lose some of her good citizens.

William Reynolds will come home Tuesday from West End Baptist Hospital where he had an operation for appendicitis. His young brother, Francis Gene, has a case of measles.

Mrs. W. A. Woods had as her dinner guest Wednesday Rev. and Mrs. Pate.

Little Joe Don Woods spent the week end with his grandparents, Mr. and Mrs. Pete Hill, of Clanton, formerly of Calera.

Mr. C. W. Wade has returned home from the hospital and is reported doing nicely.

Election of county and community AAA committeemen will be held in Alabama in November prior to the beginning of the new program in December.

Applications for parity payments are pouring into the Alabama AAA office from county offices. To date applications have been received from 30,000 farmers for nearly \$2,000,000. Approximately \$8,600,000 will be paid 190,000 farmers before the end of the season.

## FSA To List Farms For Sale

Any farm owner with land for sale in Shelby County may list it with the Farm Security Administration in Columbiana, at the old court house. Such listings, it was explained by James N. Dennis, county FSA supervisor, are being accepted in connection with the FSA tenant purchase program.

This program provides for loans to a limited number of farm tenants and laborers for the purchase of family-size farms. The loans are made on the basis of 40 years at 3 per cent interest. While each applicant must locate his own farm, the FSA is accepting listings from prospective sellers to assist tenants in locating suitable farms.

It was emphasized by Supervisor Dennis that acceptance of listings on the part of the FSA does not constitute any assurance that such farms will be sold. The only purpose is to assist prospective buyer and seller to get in touch with each other. "It's up to the applicant to locate a farm he likes," he said. "If he can find one through listings in our office, it will help him get his application in sooner."

After the applicant has chosen a farm, it is subject to careful inspection by the County Tenant Purchase Committee. Tenant purchase farms, to be approved, must be capable of producing a reasonably good living for the family besides enabling them to repay their loan and lay by something for future security.

The land owner with a large farm to sell should not hesitate to list with the FSA on account of the family-sized limitation of the tenant purchase program. Supervisor Dennis pointed out that such a farm might be large enough to be divided into two or more family-size farms.

Prices to be paid for farms under the tenant purchase program will be based on their appraised value. In no case, however, will purchase be approved for more than the average per acre price in the county or community concerned.

## WILTON NEWS

## District Meeting of B. P. W. Coming To Montevallo

Local Club Wins Award at Regional Convention Held in Bristol

The regular August meeting of the Montevallo Business and Professional Women's Club was held last Friday night, beginning with a picnic supper served by the committee composed of Misses Margaret and Virginia Evans and Lowery Turner.

One of the most important items of business was the announcement that the district meeting of B. P. W. will be held on the campus of Alabama College, September 27-28. Committees are now formulating plans for this meeting and a definite program will soon be announced.

The regional convention recently held in Bristol, Tenn., was attended by Dr. Minnie Steckel, state president of the Business and Professional Women's Club of Alabama. Among other important items of interest, one reported that the regional convention had made the

annual award to the Montevallo club, through the past-president, Dr. Anne L. Eastman. The article submitted by Dr. Eastman is of community interest and we are pleased to reproduce it below:

### OUR GREATEST ACHIEVEMENT

By Anne L. Eastman

To be an achievement an act must grow out of a sincere desire; it must have lasting results, which lead on to future achievement; it must affect others as well as ourselves; it must have both spiritual and practical value.

Judged by these standards the Town Planning Institute which the Business and Professional Women's Club brought to Montevallo this April is a genuine achievement.

It grew naturally from the theme which National suggested—"Women in a Democracy." Democracy applied to everyday life means above

all else friendly relations with other people; service to others. This deeper meaning of the program grew in us as we tried to put it into practice. We discovered unbounding good will in our town, and willingness to cooperate in any venture of real value. We found other groups working in the same direction as we and rendering very real services. We learned that projects were successful when we pooled our resources, abilities and ideas for a common end. There was Business Women's Week for example. Business people offered their windows; art students, their work. The result? Main Street pictured for us the contrast between the business woman of yesterday, and of today with real interest and charm. Moreover, three groups of people had worked together to a common end, and had enjoyed it!

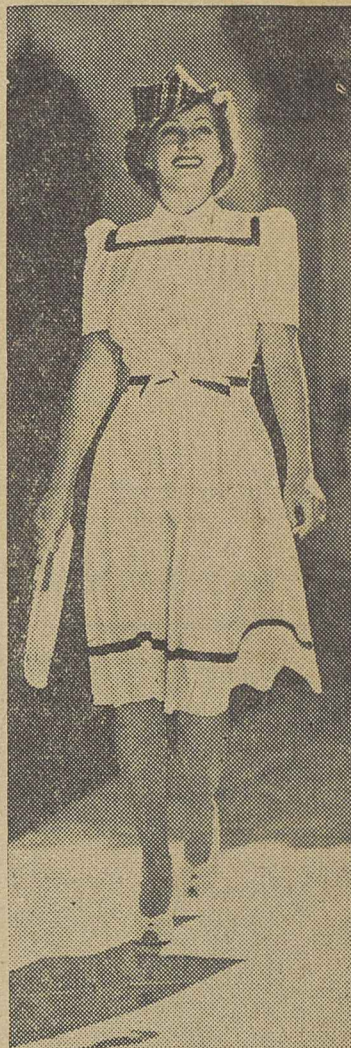

It was such fun that we planned our Christmas party, not for ourselves, but for a group of underprivileged school children. We each "adopted" a child for the season, and so became acquainted with another group in our community. Teachers worked with us, the merchants helped us, the Scouts offered their "Little House" for the party, a working man offered his noon hour to play "Santy," and several people outside of the club asked to join in.

Finally a thought which had been slowly growing in our minds found expression. If we could bring together the efforts of the many groups in town who were so generously and enthusiastically cooperative, what could we not accomplish!

Many of us were acquainted with the fine work which Holland's Magazine had undertaken in the South through its Town Planning program. This offered the very opportunity we wanted.

Mr. Morrison, from Holland's, came for two days early in April. To raise the money for his expenses we gave a community party in which all groups of people in Montevallo took part. Organizations also voted voluntary contributions. We not only made enough to pay for the Institute but have now in the bank a small Community Fund to make the first step in our joint venture a practical one. Perhaps it will be tennis courts; perhaps something else—but whatever it is, it

## Crisp White For Summer

Crisp white is Diana Lewis' choice for summer days and she takes a day off from the studio to go shopping in a white sharkskin sports dress. Unusual is the band of plaid that forms a yoke at the shoulders and is repeated on the belt and hemlines. The actress repeats the motif again in her tiny hat in plaid. White shoes and bag complete the ensemble.

## Vegetables To Plant In Fall

Let's all plant a real fall garden!

This is the plea of W. A. Ruffin, extension horticulturist, in reporting that "a lot of turnip patches are being planted this fall."

"Why stop there when the most of our most common vegetables do best during cool weather?" he asks. He then lists the following vegetables that may be planted in September and October:

Stringless and green pod beans; Kentucky Wonder and Alabama No. 1 pole beans; Early Egyptian and Detroit Red beets; Copenhagen Market and Flat Dutch cabbage; Chantenay carrots; New York and Imperial 847 Kale-Siberian lettuce; Prizetaker and Shallot onions; Thomas Laxton and Telephone English peas; Icicle, Scarlet Turnip radish; Bloomsdale spinach; and mixed turnips.

"Ground to be planted to vegetables this fall must be well prepared and fertilized," he advises. "Seeding should be done following a good rain. Do not disturb the soil any more than is necessary while planting. Use rake lightly, open furrow one inch deep for beets, carrots, etc. Walk on seed and cover lightly with soil. Beans and other vegetables with large seed should be planted two to four inches deep.

"Plant some seed now; if they fail to come up, plant some more as soon as it rains."

If turnips begin to wilt and die, there is a good chance that a small green worm is feeding in the bud. This insect makes a web over the turnip plant but neither the web nor the insect is very noticeable until the turnips begin to die. Do not take a chance. Dust the plants with rotenone-bearing dust every week.

will be ours—belonging to all of us in Montevallo.

Mr. Morrison's program is a splendid combination of idealism and practical common sense. A more beautiful, friendly, and prosperous town; this is his aim and ours. He visited every part of Montevallo, gave his technical knowledge in suggestions on such matters as planting, grading, paving, inexpensive means of turning our natural beauty spots into parks, measures to insure greater safety, plans to increase the wealth of our people. He showed us slides. He visited the school and won the hearts of our young people. He met with the most representative body probably ever to come together here, in a luncheon distinguished by its informal, friendly atmosphere. Finally, he left us on the way to a permanent organization in which all groups of people in Montevallo will have representation.

Judged then, by our strict standards, may we not claim a real achievement—that the Business and Professional Women in Montevallo have taken a place of leadership toward a practical democracy—joint effort for better living among our own people?

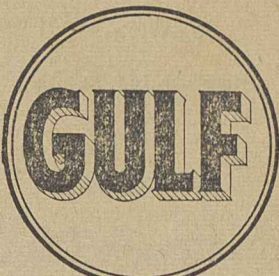

### CLANTON FOOTBALL FIELD LIGHTED FOR NIGHT PLAY

Clanton, Ala.—Work is well under way on the lighting of the Chilton County High School football field which will be ready for service when the "Tigers" play their first game against Verbena on the night of September 20.

The new field consists of eight light posts for the fields at present being built in such a manner as to be acceptable for baseball games next year with the addition of two more poles.

The new lighting was sponsored by the Clanton Kiwanis Club with the cooperation of Prof. Patterson Hichs, principal, being made possible through liberal contributions of citizens and business firms of Clanton at a cost of approximately \$1,600. Work will probably be completed by September 6. A grandstand to seat several hundred is also being constructed and a new ball park fence.

sides and had a yoke of marquisette with a high round neck line and drop shoulder effect. The gauzy yoke was joined to the taffeta bodice by a trellis of appliqued flowers with seed pearls embroidery. The large full sleeves had a tight cuff at the hand. The bouffant skirt extended into a long, graceful train.

The finger-tip length veil was attached to a bonnet of orange blossoms.

The bridal bouquet was of Easter lily petals arranged so that the center held a tuft of lilies of the valley, all surrounded by a cloud of white tulle.

The bridesmaids were Mrs. William B. Wood of Dallas, Texas; Miss Margaret Turner of Demopolis; Miss June Reid of Montgomery; They were all dressed alike in taffeta dresses of mauve orchid. They carried arm bouquets of yellow chrysanthemums tied with matching taffeta ribbons.

## Chevrolet Builds Its 900,000th 1940 Car

Here is the 900,000th car of Chevrolet's 1940 model production, as it left the assembly line at Flint, Mich., June 12, less than one month after No. 800,000 was completed. Beside the car are M. E. Coyle, general manager of the Chevrolet Motor Division (left), C. E. Wetherald, general manufacturing manager (right), and Arnold Lenz, assistant manufacturing manager, who were present in the plant when the car was produced.

"Chevrolet has built 300,000 cars in less than three months," Mr. Coyle pointed out. "The 600,000th of these models was built on March 21, the 700,000th on April 16, the 800,000th on May 13, and the 900,000th on June 12. This production rate closely parallels the consistently heavy sales volume since the introduction of the 1940 models last October, sales during March, April and May alone totalling 307,345."

feta dresses of mauve orchid. They carried arm bouquets of yellow chrysanthemums tied with matching taffeta ribbons.

Mrs. Dan K. Parkman of Montevallo was her sister's matron-of-honor. She was dressed exactly like the bridesmaids, except her dress was in tropic violet shade. She carried an arm bouquet of bronze chrysanthemums tied with matching taffeta ribbon.

The ushers were L. A. Bickerton of Washington, D. C.; William Kroell of Montevallo; Dan K. Parkman of Montevallo; and Michael L. Moscia and W. A. Eiseman, both of Montgomery.

William B. Wood of Dallas, Texas, served Mr. Haile as best man.

Immediately after the ceremony the couple left for a wedding trip to Mexico and a tour of the West. The bride wore a redingote ensemble of robin's egg blue with brown fall accessories.

The bride is the youngest daughter of Mr. and Mrs. P. J. Kroell. She attended Montevallo High School and received her A. B. degree from Alabama College, graduating with highest honors. After teaching in her home county and the Demopolis city schools, she obtained a position with the Farm Security Administration in Montgomery, where for the past three years she has been employed.

Mr. Haile is the son of M. J. Haile, Sr., and the late Mrs. Haile, of Shamokin, Pa. He received his preparatory education in his home city and attended Georgetown University in Washington, D. C., and Columbia University, New York City. For the past several years he has been associated with the United States Department of Agriculture and holds a responsible position with the Farm Security Administration in this region.

Guests from here attending the wedding were Mr. and Mrs. J. B.

## Farmers Advised To Plant Oats

Due to flood and drought, the corn crop is unusually short, but farmers have the opportunity to meet this grain shortage by seeding an oat crop between now and October 15. Low yields of corn, drought and other factors make it too risky to depend on corn alone for grain.

Oats occupy the land in winter, cost little to seed, and no cultivation required; yet they furnish grain in June. So I want to urge you to plan a grain production program including oats in winter, and corn after winter legumes.

Recommendations for planting oats:

1. Plant 1 acre for each cow and work animal on the farm.
2. Drill or sow 2 bushels of oats per acre (red rust proof).
3. Treat seed for smut with formaldehyde.
4. Graze from time they will not pull up until March 1.
5. Top-dress on March 1 with 32 pounds of nitrogen, which requires 200 pounds of nitrate of soda or its equivalent.
6. Plant September 1 to October 15.

Farmers who are not in position to pay for seed may make an assignment against the AAA payment.

—A. A. Lauderdale, County Agent.

Records from 13 North Alabama counties show that farmers saved 1,289,420 pounds of legume seed. These seed include 350,000 pounds of Willamette vetch, 318,000 pounds of hairy vetch, 582,000 pounds of crimson clover, 10,000 pounds of Monantha and 29,420 pounds of white Dutch clover. These seeds will be planted this fall.

Higgins, Mr. and Mrs. A. C. Jeter, Dr. and Mrs. J. I. Reid, and Mr. and Mrs. R. D. Gunlock of Wilton.

## Dr. Acker Asks To Withdraw His Candidacy

Mayor Says He Is Physically Unable To Serve Public In Any Capacity

At the beginning of consideration of candidates for town officials to be elected September 16, the present Mayor, Dr. Chas. T. Acker declined to allow his name to be considered as a candidate for Mayor again, owing to the fact that he did not feel physically able to carry the burden of duties of the office any further.

Therefore, in deference to his expressed wishes in the matter, his name was not placed in nomination for the office of Mayor in any of the mass meetings held for that purpose.

However, in the final mass meeting last Thursday night his name was placed before the body for consideration as a candidate for place No. 5 on the Council. His nomination for that place was ratified by the mass meeting, and his name was accordingly placed upon the ballot.

Dr. Acker still offers his health condition as a reason why he should not attempt further service in public office, and in a statement Tuesday, declining the nomination as a candidate for Councilman, he said:

"I feel that the same reason that prompted me to decline re-nomination for Mayor should be accepted by the citizens of Montevallo in considering me as a candidate for membership on the Town Council; and that I should be allowed to withdraw from the ticket for Councilman. I am physically disqualified for the service involved."

The withdrawal of Dr. Acker leaves Mr. M. P. Jeter as the lone candidate for place No. 5 on the Council in the election next Monday. However, the ballots for the election have already been printed and include both the names of Dr. Acker and Mr. Jeter.

Mayor Acker has rendered long, faithful, and fruitful service as an official of the Town of Montevallo. Besides being Mayor for the past four years, he saw prior service as a member of the Council. His administration of the affairs of the town has been altogether good, constructive, and actuated by sound and progressive motives. His many friends regret that the condition of his health is such as to cause him to feel the personal necessity to withdraw himself from further service in any public capacity.

## Miss Ellie Smyer and Bruce White Are Married In Impressive Ceremony

The marriage of Miss Ellie Nalley Smyer, daughter of Mr. and Mrs. Shuford Brandon Smyer, and William Bruce White, was solemnized at 8:30 p.m. Saturday at Highland Methodist Church.

The chancel was banked with ferns and greenery as a background for tall white standards of Easter lilies and white asters intermingled with yellow chrysanthemums. Many lighted tapers, shown from the chancellery, lighted by Billy Smyer.

The pastor, Dr. Marvin A. Franklin, read the vows.

Mrs. Mildred Faunce and Miss Florine Holt offered the nuptial music.

The bride, given in marriage by her father, wore a fitted bodice of Alencon lace. Her bouffant skirt of magnolia satin ended in a long train. The veil of illusion was attached with clusters of orange blossoms to a coronet cap of rosepoint lace. She carried a shower bouquet of orchids and valley lilies and her only ornament was a cameo worn

## OFFICERS NAMED TO HOLD TOWN ELECTION

The following citizens have been named to serve as officers conducting the municipal election in Montevallo next Monday, September 16: Inspectors: F. H. Frost, Mrs. Howard Latham, J. R. Lewis.

Clerks: Miss Sallie Hooker, Mrs. O. B. Cooper.

Returning Officer: C. M. Gardner.

## MRS. LENA DURAN'S HOME IS NEARING COMPLETION

Mrs. Lena Duran's new home on Main Street is nearing completion. This will be one of the most modern houses in our town. It is being built of asbestos shingles with a fire-proof inner wall and fire-proof roof. The poor old "fire bug" will have to go hungry if it depends on houses such as this one for its living. Air conditioning is another feature to be installed.

Mr. Will Reid hopes to complete it and have it ready for use in a few weeks.

## Legion To Issue Insurance Policies To 1941 Members

Each veteran who pays membership dues in the American Legion for 1941 will receive an official American Legion Insurance Policy, which sets out in detail all of the benefits and advantages to which ex-service men are entitled under the laws, and concise instructions as to how to proceed to obtain them.

Adjutant R. P. Holcomb, of Hendrick-Hudson Post, has secured a supply of these policies, and one will be issued to each veteran as he pays his Legion dues.

On the back of the policy is a blank for filling out the veteran's service record. A resolution adopted at the recent convention in Birmingham requires the adjutant to get the service record of every man who pays his 1941 dues.

## American Legion To Form Home Guard When National Guard Is Mobilized

### NATIONAL DEFENSE

All ex-service men of Shelby County are urged to attend a mass meeting in Calera Wednesday, September 18, at 8:00 o'clock p.m. to discuss national defense.

This is most important as the matter of home guards will be thoroughly discussed. Also explanation of policy which will go to each member in the American Legion upon his payment of 1941 dues will be made. Both the Fifth District Commander and the Central Area Commander will be present.

## REPUBLICANS PUT OUT SHELBY COUNTY TICKET

Mr. A. B. Baxley, of Calera, Republican candidate for Probate Judge of Shelby County, has sent to The Times a list of all Republican candidates for county office in Shelby County, with the request that we publish same.

We are glad to do so as a matter of news.

Following is the list of candidates:

For Judge of Probate, A. B. Baxley; for Clerk of the Circuit Court, Roy Moore; for Member of the Board of Revenue, first district, John Hughes; for Member of the Board of Revenue, third district, O. E. Cox; for Members of the Board of Education, R. D. Crim and Ira Sharbutt.

Montgomery, Ala.—Adj.-Gen Ben M. Smith last week submitted plans to Washington calling for re-organization of several Alabama National Guard units. His proposal was an alternative one to the National Guard Bureau formula for converting various state units so as to place them in different branches of the service.

General Smith's plan is to strengthen the Alabama Guard by adding 28 officers and 250 men; change part of the Headquarters 55th Cavalry organization to a Headquarters Signal Battalion; the Headquarters Troops 55th Cavalry to a Construction Company, Signal Battalion; convert the 23rd Signal troops to an Operating Company, Signal Battalion, with Birmingham as headquarters; obtain a new Headquarters and Service Company and a new Medical Detachment.

The Bureau proposal was that units of the 23rd Cavalry Division be converted into anti-aircraft and signal battalions—comprising eight units. The 24th Cavalry Veterinary Troop, Samson, was to be changed to an anti-aircraft battery. The Adjutant-General suggested that the Samson outfit be made an independent unit such as a quartermaster car company.

Asking authority to organize an engineer unit, with the 127th Engineer Squadron (actually now a part of the 23rd Cavalry, Florence,) as a nucleus, General Smith wrote to Washington officials:

"Any plan of converting the 127th Engineer Squadron, with headquarters at Florence, into a unit of another branch would be unsound and wasteful of the valuable professional training, experience, and capabilities of this unit."

Bureau officials' proposal to reassign cavalry units, they told the Adjutant-General, came as a result of the policy of the Secretary of War to convert horse cavalry into units more essential to national defense.

On the same day of General Smith's announcement came approval by Governor Dixon of organization plans for a home guard, to be summoned to service when the National Guard is transferred from the state.

The home guard is open to physically fit men between the ages of 18 and 60, but will be composed largely of American Legionnaires, around which organization the new force will be built.

The Governor has authority to draft any men between the ages of 18 and 45 "any time he sees fit;" but personnel is expected to be recruited on a volunteer basis.

George Cleere, Montgomery, state Legion commander will be commanding colonel of the home guard. (Continued on back page)

## Additional Candidates Named For Town Election Monday

## Committee To "Build Shelby" Will Hold Meeting

Mr. Luther Fowler, chairman of the executive council of the planning committee to "Build Shelby County," has issued a call for executive council to meet at the new high school building in Columbiana Friday night, September 13, at 7:30 o'clock.

Mr. Fowler has released an interesting little folder setting forth an outline of plans for "Building Shelby County," which is offered by the executive council of the planning committee.

Building and improving the soil is set up as the first and most important recommendation, which says:

"Our first recommendation is that a united county-wide and determined effort be made to build and improve the soil. We believe that for a large number of our people the only hope for better times, for better living conditions, lies in the development and improvement of the soil. As practical methods of improving the soil, we recommend the continuation of practices already begun: (a) Building of terraces using modern methods; (b) planting soil building crops, kudzu, vetch, peas."

Further recommendations for "Building Shelby County" are offered as follows:

Grow more food at home.

Grow more feed and build pastures.

Grow more livestock and poultry.

Adopt one variety of cotton, and plant only approved varieties of corn and other crops.

Provide shelter and care for farm machinery.

Learn and practice better methods of marketing.

One hundred per cent AAA payments for the county.

Protect forests against fires.

Better homes and better health in the homes.

Sponsor community organizations, community fairs, etc.

Support the county library project.

Sponsor a county-wide recreation program, using schools as recreation centers.

Sponsor community and county tours.

Work for continued improvement of roads.

Work to locate and build new industries.

Cooperate with extension, health, and welfare departments, county school system, conservation association, and every other service agency at work in this county.

## P. T. A. TO MEET TUESDAY

The Montevallo Parent-Teacher Association will meet Tuesday afternoon, September 17, at 3:30, in the Elementary School auditorium.

In recognition of National Parent Week the subject will relate to a current problem. Mrs. Robert Frost, of Spring Creek community, will lead the discussion.

All parents and friends are urged to attend.

## ALABAMIAN STAFF MEMBERS TO ATTEND A.C.P. CONVENTION

Miss Lois Anne Smith and Miss Lucille Scott, editor and business manager, respectively, of The Alabamian, will go to Detroit November 6 to attend the national convention of the Associated Collegiate Press.

Mr. and Mrs. Robert Baker of Birmingham were week end guests of their parents, Mr. and Mrs. S. M. Mahan.

## F. P. Givhan Is Left Unopposed For Mayor; New Nominations Made For Councilmen

The second mass meeting for nominating candidates for town offices, called for last Thursday night, brought out a good attendance of citizens.

Mr. R. L. Griffin was chosen chairman, and presided.

After duly settling several questions of parliamentary procedure, the meeting got down to the business at hand, the nomination of candidates for specific places on the Council, as provided by a new law of the State of Alabama.

First action was to reaffirm the nominations made at a former mass meeting by designating which place on the Council each of the nominees was for. By this action the nomination of F. P. Givhan for Mayor was sanctioned, and the following for Councilmen: For place No. 1, J. A. Brown; for place No. 2, Dr. Hallie Farmer; for place No. 3, S. M. Mahan; for place No. 4, C. G. Sharp; for place No. 5, M. P. Jeter.

Having proceeded thus far and straightened out the legal requirements for the former mass meeting, the meeting was declared open for any other nominations.

The call for additional nominees for Mayor failed to produce any, and Mr. Givhan, was, therefore left unopposed as candidate for this place.

In addition to those named above, other candidates for Councilmen were nominated by the meeting as follows:

For place No. 1, Joe Klotzman; for place No. 3, H. H. Elliott and Eddie Watson; for place No. 4, W. H. Trumbauer; for place No. 5, Dr. Chas. T. Acker.

In a statement given to The Times Tuesday, Dr. Acker withdraws from the race, saying: "I feel that the same reason that prompted me to decline re-nomination for Mayor should be accepted by the citizens of Montevallo, and that I should be allowed to withdraw from the ticket for Councilman. I am physically disqualified for the service involved." However, the ballots for the election have already been printed, and will contain the name of Dr. Acker as a candidate for fifth place, along with Mr. Jeter.

## College Sponsors Play Service Library

For another school year it is announced that Alabama College will sponsor the Play Service Library, Works Project Administration project for the benefit of the Alabama school people who need help and advice in their drama problems.

This library, located at 2331 Sixth Avenue North, Birmingham, is equipped to offer help in the form of technical information, radio scripts, costume and design sets, and selections from several thousand copies of plays, old and new.

Dr. Walter H. Trumbauer, director of the College Theatre at Alabama College and professor of dramatic literature, is the technical supervisor. "Alabama College is happy," Dr. Trumbauer said, "to give its backing and prestige to this Play Service Library because it can be such a help to the teachers, club women, and civic leaders of Alabama who have dramatic problems to present."

In answer to an inquiry, Dr. Trumbauer stated, "The library staff is happy and willing at any time to help any Alabama citizen with his or her problem connected with the theatre. This may be done either by letter or in person."

## Dr. Steckel Attends Convention Of Business Women's Club

The Fifth Biennial Conference of the Southeast Region of the National Federation of Business and Professional Women's Clubs convened in open session at Hotel Bristol in Bristol Tenn., on Friday, August 30, at 2 p.m.

The following national officers attended and appeared on programs at the conference, in addition to Dr. Minnie L. Maffett, of Dallas, Texas, president of the national organization and noted surgeon and gynecologist; Miss Grace Fitzgerald, national membership chairman; Judge Lucy Howorth of Washington, former program coordination chairman of the national federation and present head of the public affairs committee; Mrs. Ellen S. Woodward, member of the national social security board. Mrs. Woodward has served five and a half years as the only woman assistant administrator on the staff of Harry L. Hopkins. A daughter of the late Senator William V.

Sullivan, she ran for the Mississippi legislature and became the second woman to serve in that body. Judge Howorth delivered the keynote address at the opening of the conference, her subject being the planned year's study of "Making Democracy Work."

Panel discussions and round table discussions on "Review of the National Program for 1939-40" and "The Merit System," in addition to work shops and talks on membership, publications, public affairs, international relations, legislation and education, were given by members of the various state federations.

At the banquet on Saturday, Dr. Maffett, national president, gave the address. "The great need of the day is 'cool heads and calm, straight thinking,'" she said. Dr. Maffett further stated that the members of the federation "may be depended upon to support with full devotion of hand and heart any national defense program which the congress

### BUCK CREEK COTTON MILLS Notice of Regular Meeting of Stockholders

To the Stockholders of Buck Creek Cotton Mills:

Notice is hereby given that pursuant to call by the Board of Directors of Buck Creek Cotton Mills, a regular meeting of the stockholders of said corporation will be held at the principal office of the corporation in Siluria, Alabama, on the 8th day of October, 1940, at ten o'clock a.m., for the purpose of considering and taking action upon a proposal to decrease the amount of the total authorized capital stock of the corporation from \$600,000.00, divided into 6,000 shares of the par value of \$100.00 per share, to \$482,850.00, divided into 4,828½ shares of the par value of \$100.00 per share, said decrease to be effected by retiring 657 shares of First Preferred stock, 250½ shares of Second Preferred stock, and 264 shares of common stock of the corporation heretofore purchased and now owned by it, and by cancelling

the certificates evidencing same, and for the purpose of considering and taking action upon any and all matters in any way connected with the foregoing proposal.

By order of the Board of Directors.

J. T. PHILLIPS,

President and Treasurer.

## Federal Aid Now Available To Highway Division

Montgomery, Ala. — Signing by President Roosevelt last Friday of the federal aid bill passed by Congress, made available to the State Highway Department during 1941-42 a total of more than \$11,000,000 for road building, with counties cooperating with the state in the necessary matching. First information received here that the President had given his final approval to the measure was contained in a telegram from Speaker William B. Bankhead in Washington to Highway Director Chris J. Sherlock.

Under the terms of the bill \$4,320,000 is set aside to be expended on the federal aid system, \$756,000 on secondary or farm-to-market roads, and \$864,000 for grade-crossing elimination. When matched on a 50-50 basis as they must be before they are released, the \$4,320,000 and \$756,000 set aside for federal aid and secondary roads will be doubled, making a total of \$11,016,000 with the \$864,000 for grade-crossing elimination added. "Alabama can and will match every penny that is to be matched," Highway Director Sherlock said. Funds allocated for grade-crossing elimination are a direct grant to the state and do not require matching.

The director revealed that highway construction work is being speeded up and expanded in every section of the state — and for a reason. Because Alabama makes prompt payment for all road work, discounting bills for cash as they are presented for payment, it is getting work done at the lowest prices in the director's recollection, he stated. Anticipating a rise in costs of all materials going into road building with advancement of the national defense program, and tying up of the equipment and forces of many contractors on defense projects, he said, the Highway Department is making every provision to take advantage of the present low construction cost level while it lasts.

With this in view, he added, the department has received or will receive from August 23 through September 13, bids from contractors on construction projects to cost an estimated total of approximately \$1,300,000. He is anxious to get all this work under way as quickly as possible, he said, for the further reason that Alabama motorists will be able to drive over the new or improved roads and bridges contemplated within the next 12 months.

## Leaders In Physical Education Meet At Alabama College

Alabama College this week is playing host to approximately two hundred off-campus leaders in the field of health and physical education who are coming to Montevallo Friday and Saturday for a conference which will be led by Dr. C. H. McCloy, research professor in physical education, Iowa State University.

Dr. McCloy, recognized in his field as one of the national authorities in research concerning physical education, is primarily interested in tests and measurements.

During his three-day stay on the campus he will conduct a large number of individual tests of students from all classes in the college. He will also address those attending the conference in Comer Lecture Hall on Friday evening.

According to Miss Margaret McCall, director of health and physical education, the college has invited interested persons from colleges and high schools throughout Alabama to hear Dr. McCloy. On Saturday morning there will be a discussion and demonstration meeting especially for these visitors.

Dr. McCloy is a past president of the American Association for Health, Physical Education, and Recreation. An interesting sidelight on his career is his command of Chinese, having written more than fifty articles and ten training manuals in that language.

### FIRE DEPARTMENT PUTS OUT WAREHOUSE BLAZE

The fire department was called out Wednesday afternoon to extinguish a fire in the Klotzman warehouse located at the rear of Klotzman's Store. The source of the fire has not been determined. Very little damage was done due to the efficiency of the fire department.

## LOCAL NEWS OF CALERA

Quite a large crowd attended the all-day singing held in the Calera School auditorium Sunday.

The Garden Club will meet with Mrs. Jasper Holcombe on Tuesday with Mrs. W. B. Blevins as joint hostess. The state president of the Garden Clubs will meet with the group.

The Shelby zone meeting of the Missionary society was held Friday in the Methodist Church. A large number attended as Mrs. Mathews of Tuscaloosa was to be present and tell of plans for the new organization to take place because of the union of the Methodist Churches.

Miss Pearl Glass died Friday. Services were held in the Methodist Church Sunday afternoon and interment was at Salem.

Mr. and Mrs. H. K. Bice of Birmingham visited the R. H. Parker family Wednesday.

Mrs. C. L. O'Neal leaves Monday to put Charlie O'Neal in school at Baylor. Victor Scott is to go also.

The Methodist Missionary Society will meet Monday at the church to organize as outlined by Mrs. Mathews. All members joining Monday will be known as charter members and every Methodist woman is urged to come and join with the former missionary workers. An interesting program is planned and refreshments will be served.

Calera has another new teacher this week, Miss Myrtle King, of Birmingham. This makes seven new teachers for the Calera school.

Miss Ann Blevins left this week to take up her duties at Birmingham-Southern College.

Miss Bess Rice, a former teacher in Calera, was in town Saturday as the guest of friends. She left early Sunday to take up her school duties in Talladega.

Dr. and Mrs. Curtis are grandparents again. A son was born to Mr. and Mrs. W. N. Baxter of New Orleans. Mrs. Baxter was Miss Esther Curtis before her marriage.

Mr. B. F. Killingsworth died in Birmingham last week, and services were held in the Baptist Church here Friday afternoon. Burial was at Salem Cemetery.

Mr. C. W. Wade, who has been ill for the past two weeks, was carried back to the hospital last Sunday.

Mrs. W. D. Freeman of Birmingham is visiting the C. W. Wades.

Dr. and Mrs. Bonner spent the week end with relatives in Lineville.

Mrs. A. F. Seale, Jr., is visiting her mother in Wetumpka for two weeks.

## Ready for the Cigars and Election

Excepting, perhaps, a little bit of canvassing by candidates, and another little bit of mind-making-up by the voters, Montevallo is ready for the municipal election next Monday.

It is hoped that, before the day arrives, some one of the would-be public servants will pass out a few campaign cigars. That is the only prospect we have for the battle to develop any smoke.

Pete Givhan will be elected Mayor. He has no opponent.

For place No. 1 on the Council it will be a choice between J. A. Brown, present Councilman, and Joe Klotzman. No. 2 place is not contested. None of the mass meetings succeeded in naming a candidate to oppose Dr. Hallie Farmer, who has served on the Council for the past four years.

It is a three-cornered race for place No. 3. Stanley Mahan, present Councilman, is opposed by Eddie Watson and Mike Elliott.

Two college professors, Mr. Sharp and Mr. Trumbauer, are candidates for place No. 4. Mr. Sharp has been on the Council for four years.

The ballot contains the names of Dr. Acker and Mr. M. P. Jeter for Councilman in place No. 5. Dr. Acker, who has been Mayor four years, and Councilman before that, declined to allow himself to be renominated for Mayor. Now he requests that for the same reason, health handicap, that he be allowed to withdraw from the Council race.

We regard it as a savory fact that our municipal campaign has developed no "slates" or factions. Not one of the candidates is particularly "running against" another. All of them have been nominated by friends who favor them and they are merely running on their records as good, honest citizens. When the people have chosen the town's officials from among the number, those elected will go ahead and serve and all others, as citizens, will join in behind them for another four years of united effort on the part of everybody to make Montevallo a better—and better—and better town.

## We Replace Toy Weapons

In National Guard maneuvers currently in progress in the United States, soldiers simulated real warfare with toy weapons made from gaspipes and blocks of wood. Similarly, Army trucks bore placards to indicate that they were supposed to be "tanks."

These episodes should remind Americans of practical problems that must be realistically faced.

A modern army is only as strong as the war materials it possesses. Only industry can provide the nation with arms. And it faces a tremendous job.

To perform that job most successfully, industry needs public help and public understanding of its problems. The present clamor for raising an army should not obscure the extremely pressing problem of arming our soldiers.

The unequivocal support that industry is giving our national defense program is a matter of fact and record. In connection with it, remembering the picture of real men drilling with toy guns and riding in mythical tanks, we need constant reminders that the manufacturing job is a primary one in American national defense today.

## A Sign of the Time . . . of Year

Another day when it feels comfortable to sit in the sun. Moral: It is time to check up and see if the old heater is in shape for use. Maybe you are going to need a few new joints of stove pipe. Or if you are one of the more luxurious livers (one who lives luxuriously) maybe you better tap the furnace or stoker and see if it needs anything besides coal. In any event, you will need coal. It is a bad practice to leave all these things undone until the arrival of that colder day when you must have heat.

## The Man On the Corner

—Some of the things he saw  
and some he saw not.

### Sold His Cow

Our farmer-neighbor, Mr. B. B. Nix, advertised a cow for sale in last week's Times. We saw him on the corner Sunday morning and he said the cow was already sold. "I believe it pays to advertise in The Times," he said, and we readily agreed. "I am sure I will get some more inquiries to my advertisement," Mr. Nix continued, "and when I do I will fix them up too, because I've still got another cow to sell."

### Barnum's Idea of Advertising

P. T. Barnum doubtless had some of the weaknesses that are usually credited to showmen. But he was successful and ran a good circus where the customers usually got their money's worth. The man who operated "the greatest show on earth" had some sincere and proven convictions about advertising. He once said, "Advertise, or the chances are that the sheriff will do it for you." It was perhaps when he ran into folks with a contrary view on the value of advertising that he made that other famous remark: "There is one born every minute."

### John Temple Graves

It was my pleasure to be one of the capacity audience that heard John Temple Graves II deliver his address at Palmer Auditorium Tuesday night. As one newspaperman to another, I declare that Mr. Graves' smooth, logical interpretation of present-day world events under his theme, "Things Not Made to Die," was an inspiring piece. His thesis proves that democracy and civilization must be saved by the mighty, invisible fortresses of human and spiritual values arrayed behind our vanguard of guns and armaments.

### Brown's Business Expanding

Mr. J. A. Brown continues to expand his business empire. Within the past week he has bought a cotton gin at Laniers in Talladega County, and is prepared to start operation of the same at once.

### First Bale in Montevallo

The first bale of 1940 cotton was brought to Montevallo last Thursday, September 5, by Mr. T. I. Sewell, of Ashby. It was ginned by Brown Gin Co.; weighed 577 pounds; was bought by Brown Cotton Co., at the price of 12 cents a pound.

### Better Town Attendance

President Harman made the "happy observation" Tuesday night that more than the ordinary number of townspeople were in attendance at Palmer Auditorium to hear the address of John Temple Graves. It is hoped that this portends a general community trend that will continue to expand among us and bring us to constantly enlarging participation in events which are made possible and available for us by the college. Montevallo citizens can enjoy a wealth of spiritual refreshment by keeping closer with the concert, lecture, and entertainment programs at Alabama College.

### Old Time "Drummer"

Mr. L. C. Ross, well known traveling salesman, is making his rounds in this part of Alabama again, selling flour for a Nashville mill. For a long time Mr. Ross traveled this territory for a St. Louis shoe manufacturer. He formerly lived at Clanton—is a native of Athens—and now has his home in Birmingham.

### LEGAL NOTICE

Hardaway Contracting Company hereby gives notice that they have completed their contract with the State of Alabama for the Construction of Division No. 4, Section 424-A, Liquid Seal, Shelby County, and that the State has set September 8, 1940, as the date for final payment. All claims should be filed at our office in Columbus, Georgia, before the date set for final settlement. 9-5-4th

OH, YEAH?

## Tomorrow . . . Hoo-Doo Day . . . Friday 13th

When Friday meets 13—making it Friday, the 13th—millions of superstitious people in every country on earth make special efforts to avoid meeting black cats, walking under ladders, or doing any of the numerous other things which are considered "bad luck."

Most of the prevalent superstitions, including that of Friday, the 13th, bringing bad luck, have come down from primitive times.

One of the most widely held superstitions is that breaking a mirror brings seven years bad luck. This superstition originated with the early Romans about 1900 years ago. They believed (as is believed by many today) that a person's health undergoes a complete change every seven years. Since the mirror reflects the appearance of the person, the superstitious believed that to break it meant to break the health. Thus the inference of seven years of bad luck.

That the accidental breaking of a mirror might also be a death omen arose out of the early belief that seers could see the future in a mirror and thus foretell the will of the gods. The accidental breaking of a mirror was interpreted as intervention by the gods to prevent such revelation of the future. This was looked upon as a warning that the future was disastrous. The highly superstitious believed that this

meant early death.

A ladder leaning against a building forms a triangle which is a symbol of the Holy Trinity. One who shows disrespect for this emblem by walking through the triangle will be punished for this sacrilegious act, according to superstitious legend.

Lighting three cigarettes on one match as a bringer of hard luck is of more practical origin. Soldiers in the Crimean War and Boer Wars found from experience that keeping a match lit long enough to light three cigarettes increased the probability of being picked off by a sharpshooter, so that was obviously a harbinger of ill luck.

Horseshoes are considered as symbols of good luck for three reasons. Crescent forms have always been popular. The new, crescent shaped moon has long been considered lucky. Planting and harvesting crops at the time of the new moon has been a popular tradition among farmers. Iron has long been regarded as having a protective charm and years ago horses were regarded as sacred animals. Consequently, the horseshoe has always been considered triply good insurance against bad luck.

There is no superstition in the fact that every minute more than 16,000 persons are accidentally injured in the United States.

### Back to School

Away they go. Back to School. Seeking broader education. Preparing for better life and better living. As they go, we add our best wishes for all the good things they hope to attain.

This year Montevallo furnishes Auburn two rats in the persons of Bobby Cleary and Jimmy Wyatt. Francis Killingsworth, Bob Anderson, John Reid, and Wiley Fancher continue their work as upperclassmen at A. P. I.

John Orr joins Margaret Fancher and Zanie Natheas as a student at the University of Alabama.

Anne Wills is leaving soon for Emory University, Atlanta, Georgia. Bill Wilson and Mr. and Mrs. Fred Frost are to leave later this week for Auburn.

Henry Clay Griffin goes back to Georgia Tech. Gene Lewis has gone to Duke University for post graduate work. She finished at the University of Alabama last year.

Francis Peterson has gone to Chicago to attend the Art Institute. Donald Vaughan has returned to college at Cape Girardeau, Missouri.

Mr. and Mrs. Olin Riser and Olin III, of Alpine, Mr. and Mrs. Yeager Horn and Howell spent Sunday with Mr. and Mrs. R. A. Reid.

Mrs. Ida Hendrick and Mrs. Lena Duran, spent Tuesday in Montgomery.

### AMERICAN LEGION

Hendrick-Hudson Post of the American Legion will meet Thursday night, September 12, at 7:30 at the Montevallo Times office. All members are urged to attend.

### BAPTIST CHURCH

"Untried Paths" will be the theme for the Sunday morning sermon. At the evening service the pastor will speak on "Christian Excellence." There will be special music at both services. There will be a hearty welcome for all.

Mrs. R. E. Whaley, Miss Ruth Whaley, and Laura Lou returned last week from a visit of several weeks with relatives in California.

## KIDNEY STAGNATION IS WORSE THAN CONSTIPATION!

Because We Treat Constipation at The Onset, While We Neglect Our Kidneys Indefinitely

No other organ in your body is of more importance than your kidneys. For in your kidneys there are nine million tubes which must work day and night to filter the fluids and keep the system free from wastes, acids, poisons which, if permitted to remain, may cause serious kidney and bladder troubles.

It is no wonder then that Nature often calls for help to clean out the kidneys. So if you are troubled with Getting-Up-Nights, Leg Pains, Backache, Nervous Headache, Dizziness or Loss of Energy, due to functional kidney disorders, try KIDANS, the famous kidney remedy, which aids Nature to flush out the kidneys, to filter all wastes, to prevent kidney stagnation.

KIDANS is Safe and Reliable. Thousands report entire satisfaction. Taken according to directions, KIDANS will give splendid results. Try KIDANS. Buy it at our Special Price Offer on two boxes. Use one box. If not satisfied, return unopened box and GET YOUR MONEY BACK.

If your local druggist cannot supply you, send \$1.00 to The Kidans Company, Atlanta, Georgia, for two full-size boxes on a money-back guarantee.

## Meeting the Challenge of the Times

As our nation looks to its defenses, speed is the order of the day. And vital to the quickened tempo of industry and national activity is the country's telephone service. From sea to sea, in every corner of the land, it must function smoothly, quickly, regardless of the added burden it is called upon to bear. In the nine southern states served by Southern Bell, more than twenty-one thousand skilled telephone workers, with years of experience in meeting emergencies, are keenly conscious of the important part they play in the national defense program. They accept this new and challenging responsibility with full confidence, for they are prepared—organized, trained, and equipped—to meet the test of the times.

Southern Bell and the entire Bell System are in high gear. They are meeting the nation's needs today. They are ready to meet those of tomorrow. —Southern Bell Telephone and Telegraph Company, Incorporated.

teachers, who are Misses Reba Bentley and Nellie Casey and Mrs. Eleanor Williams.

A housewarming was given by the Baptist W. M. S. last Monday night for Mr. and Mrs. O. C. Williams, who recently moved to our town. Their wide popularity was attested by the many lovely and useful gifts. Delicious ice cream and cake was served to a large number of friends of the young couple.

Charles Mullins was ordained as minister of the Baptist Church last Friday night. Rev. Fred B. Pearson of Montevallo delivered the ordination sermon. Rev. Mullins will leave next week for Louisville to attend the Southern Baptist Theological Seminary. The good wishes of his many friends go with him as he takes up the life of service for his Master.

Young people who are leaving for school and college are: Miss Margaret Nash and Arch Payne, Auburn; Miss Doris Payne, Alabama College; Luther Nunnally, Jr., University of Alabama; Misses Bessie June Roy, Nettie Mae Stone, and Vivian Mullins to Wadley; L. C. Mullins, Jr., and Rev. Otis Williams, Howard College; Bill Tucker to Union Springs High School; Howard and Lloyd Lambert to Thorsby Institute; Hugh Morrow to Phillips High School; Misses Margaret Ryan and Rebecca Payne to Wheeler Business College.

The play, "A Poor Married Man," given by the Epworth League, will be presented at the school on Friday night, September 13, at 8 o'clock. Admission will be 15 and 25 cents. There will be plenty of fun for everyone who attends.

The P. T. A. will observe Membership Week October 21-25.

## Methodist Women Hold Charter Meeting

The Methodist women of Montevallo met at the church Monday afternoon for the charter meeting of the Women's Society of Christian Service, the impressive service being conducted by the pastor, Rev. J. M. Shores.

"Faith of Our Fathers" was used as the opening song, after which Rev. Shores made a short talk. Mrs. Shores was elected temporary secretary, and a reading, "The New Day," was given by Mrs. W. P. McConaughy.

The invitation for charter membership was extended by the pastor, and during the singing of hymns of consecration and service, a large group registered and received in return charter membership cards.

Following the registration, the nominating committee submitted its report and the following officers were elected: President, Mrs. J. P. Kelly; Vice-President, Mrs. L. C. Parnell; Recording Secretary, Mrs. J. M. Shores; Corresponding Secretary, Mrs. W. P. McConaughy; Treasurer, Mrs. J. A. Brown; Superintendents of Departments, Mrs. Jimmie Higgins, Mrs. M. L. Orr, Mrs. Kate Cook, Mrs. J. H. Henning, Mrs. Joe Doyle.

The impressive installation service was conducted by the pastor.

The president, Mrs. Kelly, made a short talk, after which she led the program for the afternoon, assisted by Mrs. Duran and Mrs. Jackson.

At the conclusion of the program, a delightful social hour was enjoyed in the basement of the church with the hostesses, Mrs. McConaughy, Mrs. May, Mrs. Carpenter, and Mrs. Mahan.

Mrs. J. P. Kelly attended a meeting of the conference organizational committee at the Moulton Hotel in Birmingham Wednesday. This committee was to set up the new work under the unified Methodism program and to make plans for the meeting of the Conference Women's Society for Christian Service to be held early in October.

## A. A. U. W. Holds Annual Tea

The A. A. U. W. was entertained Sunday afternoon from 3:30 to 5:30 with the annual tea which is given the first Sunday following the opening of college. This lovely affair was held at the home of Miss Katherine Vickery, president of the club, with the following as co-hostesses: Miss Margaret McCall, vice-president; Miss Joyce L. Kellogg, secretary; Miss Minnie Tracey, treasurer; The home was beautifully decorated with summer cut flowers. Misses Nellie Mae Touchstone, Elizabeth Heap, Lorraine Peter, and

Elizabeth Conn assisted the hostesses in serving. Refreshments of fruit punch, cheese straws, and cookies were served to about sixty-five members and prospective members.

The average printer annually fills in nearly 3,000 spaces on government tax blanks. And in connection with the filling-in of these forms, there are more than 30,000 words of instructions for him to read.

## Home Guard

(Continued from page 1)

Approximately 3,000 officers and enlisted men are contemplated.

Legion area commanders will serve as lieutenant-colonels; district commanders as majors; and post commanders as captains. Appointments are subject to the Governor's approval. Officership in the organization is not limited to American Legionnaires.

The federal government is expected to furnish arms and equipment just as it does in the case of the National Guard. A draft of the home guard plans has gone to the War Department for suggested changes and approval. Drills will be held on regular Legion meeting nights.

The 1939 legislature re-enacted into effect an old draft law, empowering the Governor to call civilians into military service. Since the state militia, under law, is composed of the National Guard, the Naval Militia, and the unorganized militia—and civilians are regarded as "unorganized militia"—legal authority holds that the Governor has authority to call out civilians to active military duty.

## Protection Against Diphtheria Urged

The occurrence recently of a diphtheria death in the county reminds us of the extreme importance of protecting children against this preventable disease.

Parents are urged to have their babies given toxoid when 6 to 9 months old. The dose should be repeated in four weeks, and, when the child is ready to enter school another dose should be given to stimulate his immunity.

For children under 9 years of age who have previously had one injection of toxoid, it is recommended that they be given another dose. Parents are urged also not to forget the importance of having their children protected against smallpox.

This disease has been on the increase in the United States in recent years and in 1938 Shelby County had 13 cases of very severe smallpox.

The fact that a fairly large percentage of the population has been vaccinated is the only reason that large epidemics are not occurring at the present time.

If vaccination should be neglected by a large part of the population of a community over a period of time, smallpox would become very prevalent again.—E. F. Sloan, M. D., County Health Officer.

## P. T. A. Honors Miss Boyd At First Meeting

Miss Sadie Weir Pays Tribute To Beloved Teacher And Principal Of Elementary School

A large and enthusiastic attendance heard the interesting discussion on "One Hour at a Time," given by Mrs. Robert Frost of Spring Creek community, at the P. T. A. meeting Tuesday. The talk was based on an article in the Parents' Magazine. Mrs. Frank Baker and Mrs. Howard Lucas also contributed to the discussion.

This was the first meeting of the school year. Mrs. F. H. Frost, president, presided. The speakers were introduced by Mrs. J. L. Appleton, program chairman. Mrs. M. L. Orr, membership chairman, reported 44 members. The membership drive will start immediately. The members of the committee will contact you as soon as possible.

Delicious punch was served by Mrs. Glennie Nybeck's home economics class.

The meeting adjourned to the Alice Boyd Building for a short service in honor of the birthday of the late Miss Alice Boyd, for whom the building is named.

A beautiful basket of flowers was arranged by Mrs. Inzer Reid.

Miss Sadie Weir gave a most impressive talk about the life and usefulness of Miss Boyd. In her talk, she stated a few of the ideals that were Miss Boyd's goal:

"For high Christian ideals, for beauty and strength of character, for loyalty and devotion to duty, for sympathetic understanding of children, for heroic courage and patience in suffering, for unselfish love and service given to the community, we humbly wish to revere the rich heritage left to us by Mary Alice Boyd on this, her birthday. "Her life as lived," Miss Weir said, "may be expressed in the following lines:

"The bread that bringeth strength I want to give,  
The water pure that bids the thirsty live;  
I want to help the fainting day by day,  
I'm sure I shall not pass again this way.  
I want to give good measure running o'er,  
And into angry hearts I want to pour  
The answer soft that turneth wrath away.  
I want to give to others hope and faith,  
I want to do all that the Master saith,  
I want to live aright from day to day,  
I'm sure I shall not pass again this way,  
I want to live aright from day to day,  
I'm sure I shall not pass again this way."

Heads were bowed for a moment in silent tribute to this beloved person, who was for many years a teacher and principal of the Elementary School.

## Miss Patricia Garrett And James Hodges Are Wed In Impressive Ceremony

Miss Patricia Garrett and James Hodges were united in marriage Thursday afternoon, September 5, at the home of the bride's parents, Rev. and Mrs. O. R. Burns.

The marriage rites were read by Rev. Burns. Mrs. Kirk Newell of Birmingham, aunt of the bride presented a program of nuptial music.

An altar of calla lilies and standards of white gladioli and white chrysanthemums, interspersed with cathedral candelabra, formed the background. The wedding scene was reflected in a large oval mirror placed in the background.

Miss Peggy Newell of Athens, Ga., wearing a gown of green taffeta offset by a bouquet of yellow flowers, lighted the tapers.

The bride's gown was of double net with a sweetheart neckline and short puffed sleeves. The skirt was bouffant. A wreath of orange blossoms held the fingertip veil of illusion. She wore a heirloom pearl necklace and carried a bouquet of orchids and lilies of the valley in shower effect.

The bride's parents entertained with a reception following the wedding. A lace cloth covered the table. A wedding cake embossed with orchids and lilies of the valley in spun sugar was the center decoration for the table. Mesdames Milton Orr, Jr., of Birmingham, and John Gable of Charleston, S. C., sisters of the bride, presided. Assisting at the table were Mesdames J. E. Smith, Gordon Isbell, C. R. Shepherd, and A. B. Fowler.

The mother of the bride, Mrs.

## Lee Amusement Co. To Return Monday

The Lee Amusement Company is coming back to Montevallo next week, and will be in operation each afternoon and night from September 23 through the 29th.

Location is at Fancher Field on the highway at this end of the viaduct.

Amusement devices include merry-go-round, chair - o - plane, tilt-a-whirl, roll-o-plane, ferris wheel, guide-a-plane, and the ever-popular photo gallery.

No admission will be charged to enter the grounds.

The people of this community will welcome the return of this popular amusement company. It is a show with a good clean record.

## P. S. A. Council Plans Activities

The council of the Presbyterian Student Association met on Wednesday night, September 11, at the home of Rev. and Mrs. T. M. Davis for supper and the first business meeting of the year. After supper reports were made concerning the work planned by the various chairmen of committees for the coming year. Especially were the plans discussed for the state P. S. A. which will be held here in the spring and will be composed of delegates from colleges all over the state. The council decided to take as a project the establishment of an outpost Sunday School at Straven. The finance committee proposed that each member be asked to pledge a certain amount to help with the expenses of the organization, and prepared to set up a budget for the year. The program chairman reported on the programs already planned.

Those present were Misses Mittie Byrd Dismukes, Aline Jones, Lucy Pegues, Sara Polk, Carolyn Norris, Sara Rumbley, Ruth Ash, Carolyn Nutt, Margaret Allen, Imo Heacock, May Lyman Woods, Willie Richardson, Willie Mae Collum, Delle Mullen, Mr. and Mrs. W. J. Kennerly, and Rev. and Mrs. Davis.

## Givhan Elects Mayor; Run-Off Ordered For Council Post

### The Run-Off

Town Clerk C. M. Gardner issued a statement to The Times Wednesday morning, saying that the Council has ordered a run-off election between S. M. Mahan and Eddie Watson for Monday, September 30, to determine which one of these gentlemen shall hold Place No. 3 on the Town Council.

There were three candidates on the ballot Monday. No one received a majority. Mahan was high with 78; Watson second with 60; and Elliott third with 41.

## Mrs. Isobel Bruce Is Convocational Speaker

The people of Montevallo, as well as the faculty and students of Alabama College, are invited to a noon-day convocation in Palmer Auditorium on Thursday, September 26, when Mrs. Isobel Campbell Bruce, associate professor of sociology, will speak. According to Miss Dawn S. Kennedy, chairman of the convocation committee, the subject chosen by Mrs. Bruce is "Experiences."

She is expected to talk about the eventful year she passed in the war-torn British Isles as England settled to the dogged task of stopping Hitler. It will be recalled that Mrs. Bruce was a passenger on the ill-fated Athenia and was forced to return to her home in Greenock, Scotland, when that vessel was torpedoed.

## NUTRITIONIST CONDUCTS LEADERSHIP SCHOOL

On Friday, September 13, Miss Mildred Simon, extension nutritionist, conducted an all-day leadership school on desserts and meat cookery in the auditorium of the old court house, in Columbiana. Demonstration leaders from the following Home Demonstration Clubs attended the school: Camp Branch, Chapel, Dargin, Midway, Pelham, Wilsonville, Greenacres, Klein and Maylene.

Miss Simon demonstrated the processes in cooking Swiss steak and meat loaf during the morning. In the afternoon she made coffee-caramel ice cream, orange charlotte and prune whip.

## Mayor; Run-Off Council Post

Second Election On Monday, September 30, Will Decide Winner Place Number Three

F. P. Givhan, former member of the Town Council of Montevallo, was elected Mayor Monday without opposition, receiving a total of 172 votes.

The tabulation of votes for Council members was as follows:

Place No. 1	
J. A. Brown	142
Joe Klotzman	34
Place No. 2	
Dr. Hallie Farmer	158
Place No. 3	
S. M. Mahan	78
T. E. Watson	60
H. H. Elliott	41
Place No. 4	
C. G. Sharp	159
W. H. Trumbauer	15
Place No. 5	
M. P. Jeter	132
Dr. C. T. Acker	39

Dr. Acker had withdrawn from the race for Councilman in a public statement last week, although the ballots had already been printed carrying his name as a candidate for Place No. 5.

By the vote for Place No. 3 a run-off will be necessary between S. M. Mahan and T. E. Watson. The Town Council has ordered the run-off election to be held Monday, September 30. This election will be held unless one of the contenders withdraw before that date.

## Concert - Lecture Series Program Is Announced

The Minneapolis Symphony Orchestra, Dr. William Lyon Phelps, the Hanya Holm Dancers, and the young Southern baritone, Lansing Hatfield, will highlight a list of attractions announced this week as the Concert Lecture Series for 1940-1941.

Selected each year by a faculty committee for their entertainment and educational values, the series is made available to students as part of the service covered by regular college fees. The public generally may take advantage of this series by the purchase of season tickets, or by purchasing tickets to individual numbers.

The series in detail includes on October 11 the Curtis String Quartet; October 30, Dr. Duncan Spaeth, lecture; November 21, Lansing Hatfield, baritone; December 11-12, Henry C. Wolfe, lectures; Feb 6, Minneapolis Symphony Orchestra; March 5, the Theater of Angna Enters; March 7, Dr. William Lyon Phelps; March 24-25, Hanya Holm Dancers.

All numbers of this series will be presented in Palmer Auditorium on the campus at Alabama College, beginning at 8:15 p. m. Prof. J. H. Henning, of the speech department, is chairman of the committee on arrangements for the series.

This yearly series has been a feature of campus life for a number of years, and has brought such celebrated artists and lecturers as Rose Bampton, Joseph Szigeti, the St. Louis Symphony Orchestra, Carl Sandburg, Eva Le Gallienne and Cornelia Otis Skinner.

In addition to this, our herd is disease free and our premises not contaminated. We have written records of the three tests made this year by Department of Agriculture veterinarians during the campaign now on to eradicate Bangs and T. B. Ask to see them.

We thank our friends for the confidence they have shown in us, and we shall ever be on the alert to give Montevallo the best in milk and service. Several members of the college faculty and other friends have visited us. So far we have made a record. We have not failed to sell a visitor.

## THE SWORD OF DAMOCLES

## Tributes to Speaker Bankhead

At the funeral of Speaker W. B. Bankhead in Washington Monday Congressman Sam Rayburn, of Texas, successor of the deceased to the speakership of the House, said:

"For 25 years and more I was given a rich friendship, one I shall remember to my last day. It was given to me by a great statesman, by a great man with a great soul. Paraphrasing a little, his friendship was an enriching treasure in the memory of which I shall not be poor.

"We meet today knowing from the highest to the lowest in the land that we have lost a friend. The House of Representatives has lost its great leader, the country has lost a great patriot and friend to all mankind, and each of us has lost a brother.

"The conditions under which I appear before you today make the situation more pointed to me because I stand here in great humility with a knowledge of my poor limitations, trying to follow in the footsteps of one so great and fine as the late Speaker Bankhead.

"Will Bankhead was a human being. He loved individuals, he loved people in the mass. His was a great soul. It will be many days before his light passes from this world."

Upon the same occasion Representative Joe Martin, of Massachusetts, leader of the Republican minority in the House, said:

"It is with heavy hearts we gather today to pay a tribute of respect and devotion to a beloved friend, a truly great American.

"Those of us who have been associated with Speaker Bankhead for many years know of his fine personal character, his devotion to the public service, and his rugged Americanism.

"He held, as Speaker of the House, one of the great positions in the government. It is a position which calls for ability, the highest integrity, absolute fairness, and a thorough knowledge of the business of the government. Mr. Bankhead had all of these. It can be truthfully said he measured up fully to the highest traditions of his great office.

"Mr. Bankhead was a strong partisan. Yet his respect for constitutional government and his high office was such that he gave us of the minority the full rights which must be given to a minority if we are to have a government of the people, by the people, and for the people.

"A fine life is ended. A great American has passed on to the reward which comes from a life of service dedicated to the common welfare. Legions of friends will miss his friendly smile, his warm clasp of friendship, and his characteristic southern courtesy and chivalry.

"As we who loved him gather here expressing our sorrow and grief, we can say only that which, after all, is the finest tribute which can be paid to any man:

"Well done, thou good and faithful servant."

## Borah Feared the Outcome

The late Senator Borah of Idaho was a truly great American—sometimes wrong, which is the common lot of humankind, but able to comment upon significant facts with intelligence and the force of real logic. In one of his last addresses to the Senate, in the early days of this year, Senator Borah offered an analysis of legislation to conscript industry that has developed even more pertinence today than when it was first spoken.

Borah's remarks are themselves the most powerful kind of an editorial to confound those who would give government complete control over all the processes of production. We think you'll agree when you've read his words:

"If we can do what is provided in this bill because of an emergency . . . then we could also provide, in case of an emergency, for the suspension of the Bill of Rights. We could prohibit free speech, free press and the right of trial by jury. . .

"Mr. President, democracy is having a pretty tough fight with arbitrary power and with arbitrary governments. . . Such legislation as now proposed and the seizure of every opportunity to discredit democracy and democratic processes, hastening at all times to advertise the efficiency and the necessity of arbitrary powers, are telling most against democratic principles and democratic processes. . . The glory of the Bill of Rights is that it is a restraint upon government as well as upon individuals."

Thus the eloquent "final words" of a great legislator serve to remind us that political assumption of power does not stop halfway—and that the next step after the drafting of property is the drafting of free thought and everything else that democracy values most highly!

## The Merry-Go-Round

The merry-go-round is coming back to Montevallo. Lee Amusement Company will set up in Fancher Field next to the viaduct next Monday for a week's operation. It has been quite a time since the show has been here, and we fancy the children—and no doubt some grown folks, too—are hungry for a fling on some of the devices.

## We Have Another Election

The race for Place No. 3 on Montevallo's Town Council was not settled Monday. A run-off has been ordered by the Council for Monday, September 30, between S. M. Mahan and Eddie Watson. The third man, Mike Elliott, was eliminated Monday.

## The Bankhead Funeral

By the kindness of my friend, Mr. W. L. Brown, I was privileged to attend the Bankhead funeral in Jasper Tuesday. It was a solemn experience to be one of the many thousands who were present to pay last tribute to the life and memory of our greatest Alabamian. I am quite sure I shall never again see as many people gathered together upon a single occasion.

## Help Make Better "Times"

We want to make The Times a real home newspaper, carrying all the news about people and events in the town and surrounding communities. To this end we ask all persons who know of items of news interest about your neighbors, friends or relatives to please tell us about it—mail such items to us or call phone 5101 and tell us about it.

## Wilton Has Unique Result

Among the town elections of Monday, Wilton reports the most unique result. The two candidates for Mayor, H. J. Harrison and E. V. Waldrop, tied the count, each receiving the same number of votes. Wonder what course will be taken to settle the question. We would think a run-off would not be in order. However, one of the candidates might scrape up an extra vote next time to break the tie.

## The Community Chest

It is time of the year to make new plans and objectives for the Montevallo Community Chest. Dean Napier has called the Assembly to meet next Tuesday night, at which time reports of the past year will be heard and steps taken to outline the program for another year. The Assembly is composed of representatives of all the organizations in the community which take part in and support the Chest movement.

## A New Baptism

Dr. J. Alex Moore made this terse and meaningful comment upon the Bankhead funeral: "To me it was a new baptism of democracy." Mr. Moore lived in Jasper many years, where he was a neighbor, close friend and intimate associate of the late lamented Speaker of the House.

## You Can See the Pictures

Those who did not attend the Bankhead funeral in Jasper may yet see many of the impressive scenes. Photographers were all over the place making shots for the newspapers, magazines, and news reels. It was an occasion that drew the interest of people in every part of the country. The news photographers did a good job of producing pictures that will likewise be of interest all over the country.

## They Meet Siluria

The Montevallo High Bulldogs begin their season of rough and tumble football Friday afternoon at Montevallo, as they face the strong Siluria eleven.

The Bulldogs, under the leadership of Coach Jimmie Varnell, show promise of an outstanding football team. Come out and support your team.

## County Fairs Down East

To grow fat juicy vegetables and prize-winning livestock in New England with its brief summer and rocky soil is nothing short of an art. Let him who doubts try it. The farmer who has tended a patch in California—where apples grow almost as big as a grapefruit—has reason to admire the New Englander whose trees are veterans of ice storms and frost. The agriculturist in Dixie, where cows graze outdoors the year 'round, must secretly respect his northern brother who has to build barns to house his wintering farmyard folk. The gardener from sun-flooded, irrigated fields of the Southwest or from the fertile Mississippi delta marvels at the Yankee's success with lesser sun and soil.

With boisterous storm and shallow soil, late freezes and untimely snow calling for the most tactful agrarian wisdom, is it extraordinary that New Englanders, when they view the bounty of a good crop, want to express their rejoicing in a county fair? A blue ribbon for the handsomest rooster! The same for the plumpest tomato, the ruddiest squash, the most artistic quilt, the finest jelly, the sturdiest heifer! County fairs, down East, are pageants of genuine triumph.—Christian Science Monitor.

## If . . .

If everyone who drives a car could lie a month in bed  
With broken bones and stitched-up wounds, or fractures of the head,  
And there endure the agonies that many people do,  
They'd never need preach safety any more to me or you.  
If everyone could stand beside the bed of some close friend  
And hear the doctor say "No hope" before that fatal end,  
And see him there unconscious, never knowing what took place,  
The laws and rules of traffic I am sure we'd soon embrace.  
If everyone could meet the wife and children left behind,  
And step into the darkened home where once the sunlight shined,  
And look upon "The Vacant Chair" where Daddy used to sit,  
I'm sure each reckless driver would be forced to think a bit.  
If everyone who takes the wheel would say a little prayer,  
And keep in mind those in the car depending on his care,  
And make a vow and pledge himself to never take a chance,  
The great crusade for safety then would suddenly advance.

## BAPTIST CHURCH

"Fountains in the Valley" will be the subject of the Sunday morning sermon. At 7:40 p.m. the pastor will speak on "Reverential Fear." The Missionary Society will meet at the church Monday afternoon at 4 o'clock for the business and program meeting. The G. A.'s will meet at 5:00 Wednesday afternoon.

## GIRL SCOUTS

The Montevallo Girl Scouts met with their leaders and council members Saturday afternoon, September 14, at the Scout house for a wiener roast. The out-door fireplace was properly initiated, thanks to Mr. Irvin Jones-Williams who so kindly supervised the building of the fireplace. It is not only good to look at; it really cooks! No smoke except that which goes up the chimney.

About thirty Scouts, leaders, and council members attended.

The Leaders Association of the Girl Scouts met at the Little House Tuesday evening, September 17. New leaders and their assistants were elected. They are as follows: Mrs. Cary V. Stabler, Mrs. James Higgins, Mrs. J. P. Webb, Misses Marion Simpler, Annie Mae Paulk, Jane Allen, Edwina Morgan.

Miss Edythe Saylor gave a very instructive and interesting talk to the leaders on the "Objects of Scouting."

Others present were Mrs. A. W. Vaughan, program chairman; Mrs. W. J. Kennerly, troop committee chairman; and Mrs. E. H. Wills, chairman of the house committee.

A combination of coal with air and water can now be made to produce ammonia—used in making artificial ice—and also anti-freeze. It's a case of going off in different directions whenever research feels like it, we'd say!

It is predicted that 25 per cent of the textiles that will be in general use five years from now will be made from materials not now available.

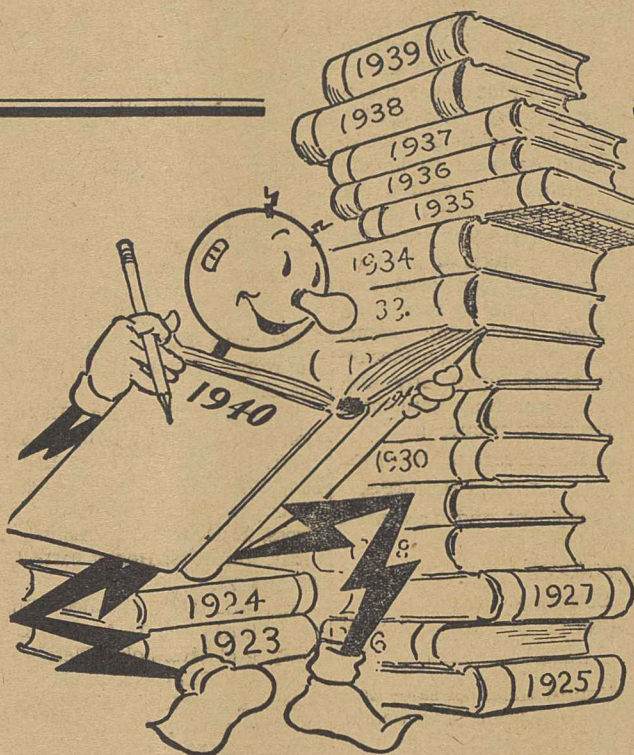

## GAME PARTY

There will be a game party at the Helena school on Thursday night, September 19, at 7:30, for benefit of the P. T. A. Admission will be 25 cents per couple.

Gasoline by-products, formerly wasted, are now being made into results which find widely varied uses, including the manufacture of airplane fuselages, bottle stoppers, and even dental plates.

Miss Margaret Reid, of Centre, and Mr. Jack Warfield, now a faculty member of the University of Arkansas, were visitors here last week.

## YOU CAN LEARN A LOT IN 17 YEARS

ALABAMA Power Company built the first experimental rural electric line in Alabama in 1923—seventeen years ago. Since then, it has extended electric service to 70,000 rural families.

To supply dependable rural electric service requires meeting special conditions—we've learned a lot about building rural lines since that first one 17 years ago.

And rural residents have learned much about the convenience and economy of electric service.

Our rural engineers will discuss with individuals or groups of rural residents the many economical uses to which electricity may be put on the farm.

**KIDNEY STAGNATION IS WORSE THAN CONSTIPATION!**

**Because We Treat Constipation at The Onset, While We Neglect Our Kidneys Indefinitely**

No other organ in your body is of more importance than your kidneys. For in your kidneys there are nine million tubes which must work day and night to filter the fluids and keep the system free from wastes, acids, poisons which, if permitted to remain, may cause serious kidney and bladder troubles.

It is no wonder then that Nature often calls for help to clean out the kidneys. So if you are troubled with Getting-Up-Nights, Leg Pains, Backache, Nervous Headache, Dizziness or Loss of Energy, due to functional kidney disorders, try KIDANS, the famous kidney remedy, which aids Nature to flush out the kidneys, to filter all wastes, to prevent kidney stagnation.

KIDANS is Safe and Reliable. Thousands report entire satisfaction. Taken according to directions, KIDANS will give splendid results. Try KIDANS. Buy it at our Special Price Offer on two boxes. Use one box. If not satisfied, return unopened box and GET YOUR MONEY BACK.

## Applications For Farm Loans Are Being Received

"Farmers in Shelby County seeking Farm Security Loans for the purchase or refinancing of necessary livestock, farm equipment, feed and seed through the Farm Security Administration, may apply at the County RR Supervisor's office, located in the old court house building at Columbiana, beginning now," announces James N. Dennis, County RR Supervisor. The office will be open every day during the week from 8:00 a.m. until 5:00 p.m., except on Saturdays. It will be open then only until 12 o'clock.

Farmers who have been unable to secure adequate credit to place their farms on a satisfactory operating basis are eligible for the Farm Security loans to provide a new start in farming. The farm occupied, or to be rented, must be large enough to support the family and appear capable of providing a margin of profit for repayment of loans based on sound and practical farm and home plans.

Terms of the loan provide for annual repayment of one-fifth of the total amount borrowed plus the deposit of an operating capital to make a crop on the next year. The rate of interest is five per cent.

It is requested that all interested parties file applications at once.

## Contract Is Let To Surface Streets

The Town Council, in a regular meeting Monday night, awarded contract for black-top surfacing of the street paving project now under construction, to the Standard Construction Co., of Birmingham. The unit price is 36.6 cents per square yard complete in place. Total of the contract is estimated at \$5,307.00.

Other bids on the job were submitted by Warren Bros. Roads Co., and Southern Amiesite Asphalt Co., both of Birmingham.

The successful bidder agrees to begin work on the contract within five days from date of contract and to complete same within 20 working days.

Preparation of the streets for hard surfacing has been under way for several months. Most of the preliminary work has been completed. All of it will be done by the time the contractor is ready to apply the black top.

## BOY SCOUT LEADERS TO MEET IN CALERA

A meeting of the Shelby County District Boy Scout leaders will be held at 7:30 p.m. Thursday, September 26, at the American Legion Hall in Calera. Mr. Marc Ray Clement will be present to discuss the work of the Black Warrior Council.

This is a very important meeting and it is hoped that a good attendance from all counties will be present.

## The Run-Off

Town Clerk C. M. Gardner issued a statement to The Times Wednesday morning, saying that the Council has ordered a run-off election between S. M. Mahan and Eddie Watson for Monday, September 30, to determine which one of these gentlemen shall hold Place No. 3 on the Town Council.

There were three candidates on the ballot Monday. No one received a majority. Mahan was high with 78; Watson second with 60; and Elliott third with 41.

## A PROCLAMATION BY THE GOVERNOR

Whereas, the National Federation of Business and Professional Women's Clubs will observe from October sixth to October twelfth, 1940, inclusive, National Business Women's Week, and

Whereas, the National Federation of Business and Professional Women's Clubs, with its over 70,000 members in these United States, Hawaii, Cuba and Alaska, has as its keynote of the biennium study of "Business Women in a Democracy," these challenging words "Making Democracy Work," which is a fitting keynote in the chaos of today when people wonder if human freedom, or kindness, or tolerance and mercy can survive the forces of hate and destruction that are marching in the world and

Whereas, the National Federation of Business and Professional Women's Clubs is continuing its intelligent study of the program "Business Women in a Democracy," the object of which is to direct the thinking of women in business and the professions to the problems of our times in order to enable them to be in position to help safeguard the economic, social and political future of American women by the preservation of democracy; and

Whereas, the members of this organization and other business and professional women have followed these ideals with unshaken faith and with unswerving direction with a loyalty and perseverance that is a tribute to them;

Now, therefore, in recognition of the untiring efforts and the splendid accomplishments that have been so justly earned by the business and professional women, I, Frank Dixon, as Governor of the State of Alabama, do hereby proclaim October sixth to twelfth, 1940, inclusive, as the thirteenth annual National Business Women's Week in Alabama and ask that all citizens, civic bodies and other organizations join with them in making this week a success.

In witness whereof, I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery, this the 30th day of Sept., 1940.

ATTEST:

*John B. Anderson*  
Secretary of State.

GOVERNOR.

## Community Chest Assembly Holds Annual Meeting

The Community Chest Assembly meeting was held at the Methodist Church Tuesday night, September 24, with the chairman, Dr. T. H. Napier, presiding. Twenty organizations of the town were represented.

The annual report of the Community Chest Board was presented by Dr. A. W. Vaughan, secretary of the Board. This report included a detailed account of the expenditures of the welfare division. It was unanimously decided to continue the Community Chest for the coming year. Dr. M. L. Orr was elected chairman, with Mrs. A. C. Jeter as secretary.

The following people were elected to the Board:

Miss Myrtle Brooke, Mr. T. M. Davis, Mrs. Denson Elliott, Miss Waurene Jones, Miss Edythe Saylor, Mr. D. A. Thomas, Dr. A. W. Vaughan, Mr. L. W. Wooten, Mr. W. M. Wyatt.

### Friday Matinee

Mr. Lee of Lee Amusement Company announces that his carnival will give a special matinee Friday afternoon from 2:30 to 6 when everybody may ride anything for a nickel. The proceeds of this special matinee will be for benefit of the Montevallo High School.

## Convention of Business and Professional Women Is Held Here Saturday

### Representatives Come From Ten Cities of District

State Board and State Committee Chairmen Will Meet Friday And Stay For Convention

The Fourth District convention of the Business and Professional Women's Clubs of Alabama will be held at Alabama College in Montevallo Saturday of this week. The local club of Business and Professional Women and Alabama College will be joint hosts to the convention which will bring many visiting club members from the ten towns of the district.

At the call of the state president, Dr. Minnie L. Steckel, the members of the state board and the chairmen of the state committees will meet at Alabama College Friday. The members of this group will remain here Saturday to attend the convention.

### Member Clubs

The Montevallo Club is indeed glad to meet and entertain representatives from the member clubs in this district. They are:

Birmingham—Mrs. Rosa Lee Stoelker, president.

Columbiana—Miss Lucy McCormack, president.

Fairfield—Mrs. A. E. Houk, president.

Carbon Hill—Mrs. N. A. Duncan, president.

Jasper—Mrs. Auroma Dessler, president.

Tuscaloosa Senior—Mrs. Irene F. Yerby, president.

Tuscaloosa Junior—Miss Margaret Strickland, president.

Leeds—Mrs. Bertha Pizer, president.

Vernon (new)—Miss Lilly Mae Johnson, president.

### Guests at Dinner

Dr. A. F. Harman, president of Alabama College, has invited the state officers and the state committee chairmen to be guests of the college at a dinner on Friday evening, September 27, in the dining room of Reynolds Hall.

This lovely old building, recently remodeled as a student union building, combines the charming architecture of the Old South with the comfort and convenience of a modern club.

This is only the second time that the dining room has been used and the first time since it has been completely furnished.

### Formal Banquet

The Montevallo branch of the Business and Professional Women's Club will join the Fourth District guests, the state board members, and the state committee chairmen at a formal banquet to be held in the main dining room of Alabama College at 7 p.m. Saturday, September 28.

Mrs. W. L. Murdoch, of Birmingham, will address the group on "Facing 1940 Issues." Mrs. Murdoch is well known for her thorough knowledge of current issues, so her address is pleasantly anticipated by all privileged to hear her.

A series of surprise features will conclude this most delightful evening.

### CLUB MEMBERS ATTEND REGIONAL MEETING

Misses Edythe Saylor and Rochelle Gachet attended the regional meeting of Federated Clubs in Selma Wednesday as delegates of the Studios Club. Mrs. J. Alex Moore, also a member of the club, was honored as the pioneer woman. Dr. Hallie Farmer was guest speaker of this meeting.

Several other clubs were also represented.

# Mrs. W. L. Murdoch and Dr. Hallie Farmer Are Speakers At Women's Meeting Here

DR. HALLIE FARMER

## Making Democracy Work

Dr. Hallie Farmer of Alabama College will deliver what might be called the "keynote speech" of the convention of the Fourth District of the Business and Professional Women. "Making Democracy Work" is a subject dear to Dr. Farmer's heart and one on which she has much of genuine value to say. Her work among the women of the state for many years past has been a real contribution to a workable democracy in Alabama, as has her inspiring teaching of political science and American history to Alabama College students. A recent practical application of her theme was the unusual and successful School of Citizenship held for women of the state at Montevallo this summer.

In these days when democracy is under fire, a philosophy of government based on a combination of knowledge and practical experience is of utmost importance. It is this happy combination that Dr. Farmer can give us.

Dr. Minnie L. Steckel, above, student counselor at Alabama College, is state president of The Alabama Business and Professional Women's Clubs.

## National Defense and the Woman Worker

Jobs suited to women and women trained for jobs is the keynote of effective use of women in defense industries, sounded in Special Bulletin No. 1 of the Women's Bureau, U. S. Department of Labor, just off the press.

"Efficient production, where women are involved, calls for their employment at jobs they can do well, under safe working conditions, and with sound labor policies," Miss Mary Anderson, the Bureau's director, stated. "Women can do many jobs as well as, if not better than, men, but it is not the aim to have women replace men. We urge that women as well as men in need of employment be given opportunities for work in the program of expanded production."

Experience in regard to women workers in the World War is discussed in great detail in "The New Position of Women in Industry," Bulletin 12, Women's Bureau, U. S. Department of Labor, 1924. This report contains the following statement:

"The popular belief that women in industry rendered real service to the nation during the war is sustained by the figures showing the numbers of women employed both in war agent and implement industries and in war food and fabric industries, by the preponderance of evidence from employers holding important government contracts, and by the official statement of the Assistant Secretary of War, acting as director of munitions."

## National Business Women's Week Is October 6 to 12

The National Federation of Business and Professional Women's Clubs, in carrying out their slogan for 1940, "Business Women in a Democracy," are sponsors of National Business Women's Week, to be observed October 6-12, inclusive.

The Montevallo chapter has plans practically complete for the local recognition of this week. Miss Dawn Kennedy, head of the art department at Alabama College, is wholeheartedly assisting the local committee with her poster projects. On the morning of October 6, the local store windows will glow with dramatic red, white, and blue, setting forth the theme of "Making Democracy Work" by voting. Not only the business women, but also the business men of Montevallo are more than willing to donate space for this celebration and all the displays thus set up will tell the complete story. In no way is this a question of "How will you vote in November?" but rather "Will you vote?" or "Why will you vote?"

The new members of the Montevallo Club were honored with a very informal party at the Scout House last Friday night. One of the unusual but quite delightful features of the evening was a group of musical selections given by the Aldrich Colored Baptist Choir. The club year has started quite auspiciously with the following new members: Misses Betty LeBaron, Jimmie Nell Milner, Sarah Vaughan, Loretta Skelly, Celia Methvin, Birdie Margaret Moorer, Dr. Zoe Black, and Mrs. Billie Ruth Harrison.

## DUNNWAY TO ADDRESS TEACHERS ASSOCIATION

A. C. Dunnaway, superintendent of education of Coffee County, has been secured to address a joint meeting of the Shelby County Teachers Association and the Shelby County Planning Improvement Committee, along with all interested in the community, at the County High School auditorium on Wednesday, October 2, at 4:30 p.m.

Coffee County has done an outstanding piece of work in improving home, school, farm and business conditions, and Mr. Dunnaway has been a leader in this work. The general public is cordially invited and it is hoped that a large number will be present.

## Mrs. Murdoch

Mrs. W. L. Murdoch, the guest speaker, is a current events lecturer of national prominence, is widely traveled, thoroughly informed, and a brilliant, stimulating speaker. She was born in Boston but lived most of her life in Atlanta and Birmingham. She is noted throughout the state as lecturer and analyst of international affairs. She has studied at the International School in Geneva, as well as Bradford College, Harvard and Columbia Universities. She has traveled extensively in Europe, South America, Mexico, Russia and Finland. She is a brilliant and dynamic speaker.

The Montevallo branch is sponsoring a Pratt Memorial Scholarship for Lucy Pegues, a junior at Alabama College.

Dr. Hallie Farmer, head of the history department of Alabama College, has recently been elected to succeed herself, without opposition, to the Montevallo Town Council.

The Montevallo Club has two state officers this year: President, Dr. Minnie L. Steckel; and Corresponding Secretary, Miss Leah Brownfield.

The state education committee chairman, Miss Rochelle Rodd Gachet, is also a member of the local organization.

Congratulations to Hillsboro, Alabama, for their all-woman town government!

Miss Josephine Eddy and Dr. Hallie Farmer are both members of the Joint Legislative Council and are also quite active in the local club.

## Montevallo Wins

Bristol, Tenn., Aug. 30. Mrs. Lena Jeter, Care Dr. Napier's Office, Montevallo, Ala.

Montevallo Club won first prize at regional for definition of democracy and report of achievement. Ask Anne Eastman to read it. Wish you were here.

## Thompson High Girls Plan Budget For Family Of Five

The home management class of Thompson High School has been working on a budget for an average Shelby County family living in a rural community on a decent level and supporting itself almost entirely on the money income.

The class decided to assume an income of \$100 per month or \$1200 per year for the family of five, including mother, father, and three children, ages 8, 10, and 15 years. The housewife is skilled in home-making and management, and is able to plan for expenditures and execute most of the work of the home with the other members of the family cooperating.

The standard budget as given by the federal government was studied and revised to suit the needs of the family. The large division, as well as the smaller, follows:

Foods 35 per cent — One-fifth meat, eggs, cheese; one-fifth breads and cereals; one-fifth fresh fruits and vegetables; one-fifth milk and butter.

Shelter—12 per cent.  
Operating expenses—12 per cent.  
Higher life—15 per cent.  
Savings—6 per cent.

Clothing—20 per cent.

Father, 5 per cent; mother, 5 per cent; 15-year-old daughter, 5 per cent; 10-year-old daughter, 2½ per cent; 8-year-old daughter, 2½ per cent.

Outer clothing, 50 per cent; under clothing, 10 per cent; shoes and hose, 25 per cent; hats, 5 per cent; accessories, 5 per cent; sports, 5 per cent.

After these divisions were made, then the real work began in making market orders and planning balanced meals for the family, planning attractive and suitable clothing for each member of the family, deciding about housing, and how to invest savings.

These problems brought out many interesting and helpful discussions and some of the decisions are given below:

1. For this family to be well nourished, it will be better for them to own a cow and a few chickens, since feeding them will be relatively cheap in the country.

2. The mother will have to do home sewing in order that they present an attractive appearance on their allowances.

3. It would seem wise for them

to build a small but convenient cottage on the F. H. A. plan and pay for it as rent, if they are not transient. This will give them a sense of security and well-being in the community.

4. The savings, being rather small, should be invested almost entirely in insurance, life insurance, and hospital insurance, for protection to this family of growing and dependent children.

There were innumerable details worked out by this group that cannot be mentioned here because of space, but each girl feels that after this detailed study she can put into operation a budget of her own.

## Agent Discusses Use of Phosphate With Legumes

By A. A. Lauderdale  
County Agent

I want to call attention to the fact that all superphosphates seriously injure inoculation when coming in direct contact with the inoculation.

A method that can be followed and one that is especially adapted to growers planting a small acreage of winter legumes is to drill the superphosphate with the knocker distributor in the usual way. This may be between cotton or corn rows or on stubble land. The soil falling behind the scooter on the knocker should cover the superphosphate. Then plant the inoculated seed behind the distributor by using a guano horn (guano bugle). Cover the seed by running out the middles with a sweep, scrape, or gee whiz, being careful to see that the distributor furrows are filled with soil. This method involves hand labor, yet it is a safe method of planting and one within reach of all farmers.

If the land is free of crops, the phosphate and inoculated seed may be broadcast and plowed or disked in.

Farmers in several sections of the state have adopted the practice of bending a piece of corrugated roofing into a V and cutting a hole in the point of the V through which to pass the clevis on the distributor or planter. This device is said to reduce very greatly knocking out of cotton in planting, since the limbs and bolls will not hang on the distributor. Some have used canvas for the same purpose, but the piece of roofing seems to be more satisfactory.

### CHIEF GARDNER ARRESTS COUNTY LICENSE INSPECTOR

Chief of Police C. M. Gardner arrested E. E. Walton, county license inspector, Monday on a charge of doing business in the Town of Montevallo without a privilege license. It is charged that violation of the Town's ordinances was committed by Mr. Walton in selling soft drinks from a truck.

Mr. Walton posted \$100 bond to appear in Mayor's court to answer the charge.

Mr. Walton is a well known citizen, having held the position of license inspector for Shelby County for the past few years.

### COUNTY DAIRIES PRODUCE GRADE A MILK

The following dairies in Shelby County have produced Grade A raw milk during the past grading period: Alabama College Dairy, Montevallo; Kent's Dairy Farm, Siluria Rt. 1; Fairhaven Farm, Montevallo Rt. 1.

These dairies have been regularly inspected by the Health Department and milk samples examined at frequent intervals.

### MISS JOHNNIE HAYES BURIED AT PROVIDENCE

Funeral services for Miss Johnnie Hayes were held at Providence church, Beat 13, Chilton County, last Sunday with Rev. Dalton Cliner officiating.

Surviving are her father, J. Madison Hayes; two brothers, Grover of Marvel, and Madison, of Boothton; three sisters, Mrs. Bean of Aldrich, Mrs. Lanelle Fulghum, of Wilton, and Miss Myrolene Hayes.

## Mrs. Bruce To Speak At Convention

The people of Montevallo, as well as the faculty and students of Alabama College, are invited to a noon-day convocation in Palmer Auditorium on Thursday, September 26, when Mrs. Isobel Campbell Bruce, associate professor of sociology, will speak. According to Miss Dawn S. Kennedy, chairman of the convocation committee, the subject chosen by Mrs. Bruce is "Experiences."

She is expected to talk about the eventful year she passed in the war-torn British Isles as England settled to the dogged task of stopping Hitler. It will be recalled that Mrs. Bruce was a passenger on the ill-fated Athenia and was forced to return to her home in Greenock, Scotland, when that vessel was torpedoed.

## Study Club Meets With Mrs. Jeter

The Montevallo Study Club held the first meeting of the year last Wednesday afternoon at the home of Mrs. M. C. Jeter, with Mrs. M. P. Jeter as joint hostess. Mrs. Tidwell presided at the business meeting.

Programs for the year were planned during the summer by Mesdames Reynolds, Towery, and Jackson. Year books were distributed. Members of the club are looking forward to interesting programs on a variety of subjects. Plans were made for a group of club members to attend the District Federation meeting in Selma on September 25. Mrs. Reynolds is district director and Mrs. Hood secretary-treasurer, so the Study Club feels a particular interest in the meeting.

Mrs. Wills had charge of the program for the afternoon. She made an interesting talk on parliamentary procedure mentioning in particular little mistakes common to office holders.

Mrs. T. M. Davis was welcomed as a new member. Others present in addition to the hostesses were Mesdames J. F. Baker, M. W. Fancher, F. P. Givhan, W. L. Gravlee, R. P. Holcomb, E. P. Hood, W. D. Jackson, J. P. Kelly, W. J. Kennerly, M. L. Orr, L. C. Parnell, E. D. Reynolds, G. P. Rogan, W. F. Tidwell, E. H. Wills, and Mrs. David Eddington, of Monroeville, a guest of Mrs. Davis.

### BAPTIST CHURCH

The pastor will preach Sunday morning on "The Fellowship of Faith." The subject of the Sunday evening sermon will be "Living Stones." The Sunday School hour is 9:45 a.m. The Baptist Training Union meets at 6:45 p.m.

Sunday will be observed as "Join the Church" Sunday. We invite all Baptists who live in Montevallo and are not members of our church to join Sunday by letter from your home church or by profession of faith. Every Christian needs the fellowship of other Christians.

## Curtis Quartet To Use Rare Old Instruments Here

One of the most famous collections of rare old Cremona instruments in the world will be used by the Curtis String Quartet for its concert in Palmer Auditorium at Alabama College, October 11. The four lutes including two Stradivarius violins, a Nicolo Amati viola, and a Domenico Montagnana cello, have been declared by music critics to constitute perhaps the most perfectly balanced quartet yet achieved. They were provided for the Curtis ensemble by its patroness, Mrs. Mary Louie Curtis Bok, widow of the late Edward Bok and daughter of Cyrus Curtis of Publishing fame. A Philadelphia Violin maker, William Moenig Jr., has recently completed exact copies of the four fiddles which the Quartet carries with it on tours for use as spares or stand-ins to prevent overtaking the originals.

## Wooten To Occupy New Building Friday

Wooten Motor Company will occupy their new office building and show rooms this week coincident with the showing of the new 1941 Ford car.

The new structure of brick is on the corner lot adjoining the old building formerly occupied by Towery. The Wooten place will be a combination of both the old and the new buildings, making it one of the largest and most suitably arranged automobile places in this section of Alabama.

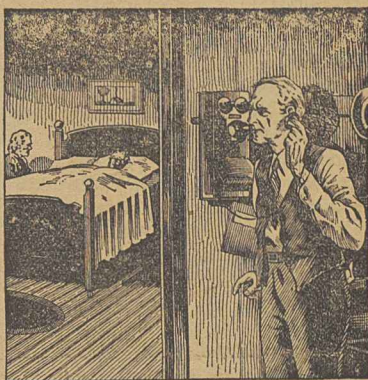

Mr. L. W. Wooten, proprietor, extends an invitation to everybody to visit his place Friday of this week when an opportunity will be given to see both the new Ford car for 1941 and the new building which will be the home of Ford for the future in Montevallo.

### JUST THREE MORE CARNIVAL DAYS ARE LEFT

Just three more days of the carnival! How the days do fly when an amusement such as the Lee Amusement Company comes to town! For a thrill as you have never had before just take a fling in the "Roll-O-Plane." The "Tilt-A-Whirl" is no infant's cart either.

It's a pleasure to stand on the sidelines and watch the happy faces of the children; and by the way, quite a number of "grown-ups," too, when they are riding on some of the devices.

Let's have them to visit our town more often.

## IN EMERGENCIES

Do you and your family live in fear of emergencies... wondering what you would do, for instance, if a doctor were needed immediately or a fire broke out. A telephone would help to relieve all such fears. With a telephone in your home you have the comforting knowledge that help is within reach of your voice day or night. Although you live miles from town, you are never isolated when you have a telephone.

The added protection that a telephone affords your family by far outweighs the small amount saved by trying to get along without one.

Why wait longer now that you can have a telephone on your farm for so little.

# Mrs. W. L. Murdoch and Dr. Hallie Farmer Are Speakers At Women's Meeting Here

DR. HALLIE FARMER

## National Business Women's Week Is October 6 to 12

The National Federation of Business and Professional Women's Clubs, in carrying out their slogan for 1940, "Business Women in a Democracy," are sponsors of National Business Women's Week, to be observed October 6-12, inclusive.

The Montevallo chapter has plans practically complete for the local recognition of this week. Miss Dawn Kennedy, head of the art department at Alabama College, is wholeheartedly assisting the local committee with her poster projects. On the morning of October 6, the local store windows will glow with dramatic red, white, and blue, setting forth the theme of "Making Democracy Work" by voting. Not only the business women, but also the business men of Montevallo are more than willing to donate space for this celebration and all the displays thus set up will tell the complete story. In no way is this a question of "How will you vote in November?" but rather "Will you vote?" or "Why will you vote?"

The new members of the Montevallo Club were honored with a very informal party at the Scout House last Friday night. One of the unusual but quite delightful features of the evening was a group of musical selections given by the Aldrich Colored Baptist Choir. The club year has started quite auspiciously with the following new members: Misses Betty LeBaron, Jimmie Nell Milner, Sarah Vaughan, Loretta Skelly, Celia Methvin, Birdie Margaret Moorner, Dr. Zoe Black, and Mrs. Billie Ruth Harrison.

### DUNNAWAY TO ADDRESS TEACHERS ASSOCIATION

A. C. Dunnaway, superintendent of education of Coffee County, has been secured to address a joint meeting of the Shelby County Teachers Association and the Shelby County Planning Improvement Committee, along with all interested in the community, at the County High School auditorium on Wednesday, October 2, at 4:30 p.m.

Coffee County has done an outstanding piece of work in improving home, school, farm and business conditions, and Mr. Dunnaway has been a leader in this work. The general public is cordially invited and it is hoped that a large number will be present.

## Making Democracy Work

Dr. Hallie Farmer of Alabama College will deliver what might be called the "keynote speech" of the convention of the Fourth District of the Business and Professional Women. "Making Democracy Work" is a subject dear to Dr. Farmer's heart and one on which she has much of genuine value to say. Her work among the women of the state for many years past has been a real contribution to a workable democracy in Alabama, as has her inspiring teaching of political science and American history to Alabama College students. A recent practical application of her theme was the unusual and successful School of Citizenship held for women of the state at Montevallo this summer.

In these days when democracy is under fire, a philosophy of government based on a combination of knowledge and practical experience is of utmost importance. It is this happy combination that Dr. Farmer can give us.

## Mrs. Murdoch

Mrs. W. L. Murdoch, the guest speaker, is a current events lecturer of national prominence, is widely traveled, thoroughly informed, and a brilliant, stimulating speaker.

She was born in Boston but lived most of her life in Atlanta and Birmingham. She is noted throughout the state as lecturer and analyst of international affairs. She has studied at the International School in Geneva, as well as Bradford College, Harvard and Columbia Universities. She has traveled extensively in Europe, South America, Mexico, Russia and Finland. She is a brilliant and dynamic speaker.

The Montevallo branch is sponsoring a Pratt Memorial Scholarship for Lucy Pegues, a junior at Alabama College.

Dr. Hallie Farmer, head of the history department of Alabama College, has recently been elected to succeed herself, without opposition, to the Montevallo Town Council.

The Montevallo Club has two state officers this year: President, Dr. Minnie L. Steckel; and Corresponding Secretary, Miss Leah Brownfield.

The state education committee chairman, Miss Rochelle Rodd Gachet, is also a member of the local organization.

Congratulations to Hillsboro, Alabama, for their all-woman town government!

Miss Josephine Eddy and Dr. Hallie Farmer are both members of the Joint Legislative Council and are also quite active in the local club.

## Montevallo Wins

Bristol, Tenn., Aug. 30. Mrs. Lena Jeter, Care Dr. Napier's Office, Montevallo, Ala.

Montevallo Club won first prize at regional for definition of democracy and report of achievement. Ask Anne Eastman to read it. Wish you were here.

MINNIE L. STECKEL

Dr. Minnie L. Steckel, above, student counselor at Alabama College, is state president of The Alabama Business and Professional Women's Clubs.

## National Defense and the Woman Worker

Jobs suited to women and women trained for jobs is the keynote of effective use of women in defense industries, sounded in Special Bulletin No. 1 of the Women's Bureau, U. S. Department of Labor, just off the press.

"Efficient production, where women are involved, calls for their employment at jobs they can do well, under safe working conditions, and with sound labor policies," Miss Mary Anderson, the Bureau's director, stated. "Women can do many jobs as well as, if not better than, men, but it is not the aim to have women replace men. We urge that women as well as men in need of employment be given opportunities for work in the program of expanded production."

Experience in regard to women workers in the World War is discussed in great detail in "The New Position of Women in Industry," Bulletin 12, Women's Bureau, U. S. Department of Labor, 1924. This report contains the following statement:

"The popular belief that women in industry rendered real service to the nation during the war is sustained by the figures showing the numbers of women employed both in war agent and implement industries and in war food and fabric industries, by the preponderance of evidence from employers holding important government contracts, and by the official statement of the Assistant Secretary of War, acting as director of munitions."

### LEGAL NOTICE

Hardaway Contracting Company hereby gives notice that they have completed their contract with the State of Alabama for the Construction of Division No. 4, Section 424-A, Liquid Seal, Shelby County, and that the State has set September 8, 1940, as the date for final payment. ## Thompson High Girls Plan Budget For Family Of Five

The home management class of Thompson High School has been working on a budget for an average Shelby County family living in a rural community on a decent level and supporting itself almost entirely on the money income.

The class decided to assume an income of \$100 per month or \$1200 per year for the family of five, including mother, father, and three children, ages 8, 10, and 15 years. The housewife is skilled in home-making and management, and is able to plan for expenditures and execute most of the work of the home with the other members of the family cooperating.

The standard budget as given by the federal government was studied and revised to suit the needs of the family. The large division, as well as the smaller, follows:

Foods 35 per cent — One-fifth meat, eggs, cheese; one-fifth breads and cereals; one-fifth fresh fruits and vegetables; one-fifth milk and butter.

Shelter—12 per cent.

Operating expenses—12 per cent.

Higher life—15 per cent.

Savings—6 per cent.

Clothing—20 per cent.

Father, 5 per cent; mother, 5 per cent; 15-year-old daughter, 5 per cent; 10-year-old daughter, 2½ per cent; 8-year-old daughter, 2½ per cent.

Outer clothing, 50 per cent; under clothing, 10 per cent; shoes and hose, 25 per cent; hats, 5 per cent; accessories, 5 per cent; sports, 5 per cent.

After these divisions were made, then the real work began in making market orders and planning balanced meals for the family, planning attractive and suitable clothing for each member of the family, deciding about housing, and how to invest savings.

These problems brought out many interesting and helpful discussions and some of the decisions are given below:

1. For this family to be well nourished, it will be better for them to own a cow and a few chickens, since feeding them will be relatively cheap in the country.

2. The mother will have to do home sewing in order that they present an attractive appearance on their allowances.

3. It would seem wise for them

to build a small but convenient cottage on the F. H. A. plan and pay for it as rent, if they are not transient. This will give them a sense of security and well-being in the community.

4. The savings, being rather small, should be invested almost entirely in insurance, life insurance, and hospital insurance, for protection to this family of growing and dependent children.

There were innumerable details worked out by this group that cannot be mentioned here because of space, but each girl feels that after this detailed study she can put into operation a budget of her own.

## Agent Discusses Use of Phosphate With Legumes

By A. A. Lauderdale  
County Agent

I want to call attention to the fact that all superphosphates seriously injure inoculation when coming in direct contact with the inoculation.

A method that can be followed and one that is especially adapted to growers planting a small acreage of winter legumes is to drill the superphosphate with the knocker distributor in the usual way. This may be between cotton or corn rows or on stubble land. The soil falling behind the scooter on the knocker should cover the superphosphate. Then plant the inoculated seed behind the distributor by using a guano horn (guano bugle). Cover the seed by running out the middles with a sweep, scrape, or gee whiz, being careful to see that the distributor furrows are filled with soil. This method involves hand labor, yet it is a safe method of planting and one within reach of all farmers.

If the land is free of crops, the phosphate and inoculated seed may be broadcast and plowed or disked in.

Farmers in several sections of the state have adopted the practice of bending a piece of corrugated roofing into a V and cutting a hole in the point of the V through which to pass the clevis on the distributor or planter. This device is said to reduce very greatly knocking out of cotton in planting, since the limbs and bolls will not hang on the distributor. Some have used canvas for the same purpose, but the piece of roofing seems to be more satisfactory.

### CHIEF GARDNER ARRESTS COUNTY LICENSE INSPECTOR

Chief of Police C. M. Gardner arrested E. E. Walton, county license inspector, Monday on a charge of doing business in the Town of Montevallo without a privilege license. It is charged that violation of the Town's ordinances was committed by Mr. Walton in selling soft drinks from a truck.

Mr. Walton posted \$100 bond to appear in Mayor's court to answer the charge.

Mr. Walton is a well known citizen, having held the position of license inspector for Shelby County for the past few years.

### COUNTY DAIRIES PRODUCE GRADE A MILK

The following dairies in Shelby County have produced Grade A raw milk during the past grading period: Alabama College Dairy, Montevallo; Kent's Dairy Farm, Siluria Rt. 1; Fairhaven Farm, Montevallo Rt. 1.

These dairies have been regularly inspected by the Health Department and milk samples examined at frequent intervals.

### MISS JOHNNIE HAYES BURIED AT PROVIDENCE

Funeral services for Miss Johnnie Hayes were held at Providence church, Beat 13, Chilton County, last Sunday with Rev. Dalton Cliner officiating.

Surviving are her father, J. Madison Hayes; two brothers, Grover of Marvel, and Madison, of Boonton; three sisters, Mrs. Bean of Aldrich, Mrs. Lanette Fulghum, of Wilton, and Miss Myrolene Hayes.

## Mrs. Bruce To Speak At Convention

The people of Montevallo, as well as the faculty and students of Alabama College, are invited to a noon-day convocation in Palmer Auditorium on Thursday, September 26, when Mrs. Isobel Campbell Bruce, associate professor of sociology, will speak. According to Miss Dawn S. Kennedy, chairman of the convocation committee, the subject chosen by Mrs. Bruce is "Experiences."

She is expected to talk about the eventful year she passed in the war-torn British Isles as England settled to the dogged task of stopping Hitler. It will be recalled that Mrs. Bruce was a passenger on the ill-fated Athenia and was forced to return to her home in Greenock, Scotland, when that vessel was torpedoed.

## Study Club Meets With Mrs. Jeter

The Montevallo Study Club held the first meeting of the year last Wednesday afternoon at the home of Mrs. M. C. Jeter, with Mrs. M. P. Jeter as joint hostess. Mrs. Tidwell presided at the business meeting.

Programs for the year were planned during the summer by Mesdames Reynolds, Towery, and Jackson. Year books were distributed. Members of the club are looking forward to interesting programs on a variety of subjects. Plans were made for a group of club members to attend the District Federation meeting in Selma on September 25. Mrs. Reynolds is district director and Mrs. Hood secretary-treasurer, so the Study Club feels a particular interest in the meeting.

Mrs. Wills had charge of the program for the afternoon. She made an interesting talk on parliamentary procedure mentioning in particular little mistakes common to office holders.

Mrs. T. M. Davis was welcomed as a new member. Others present in addition to the hostesses were Mesdames J. F. Baker, M. W. Fancher, F. P. Givhan, W. L. Gravlee, R. P. Holcomb, E. P. Hood, W. D. Jackson, J. P. Kelly, W. J. Kennerly, M. L. Orr, L. C. Parnell, E. D. Reynolds, G. P. Rogan, W. F. Tidwell, E. H. Wills, and Mrs. David Eddington, of Monroeville, a guest of Mrs. Davis.

### BAPTIST CHURCH

The pastor will preach Sunday morning on "The Fellowship of Faith." The subject of the Sunday evening sermon will be "Living Stones." The Sunday School hour is 9:45 a.m. The Baptist Training Union meets at 6:45 p.m.

Sunday will be observed as "Join the Church" Sunday. We invite all Baptists who live in Montevallo and are not members of our church to join Sunday by letter from your home church or by profession of faith. Every Christian needs the fellowship of other Christians.

### Election Next Monday

Next Monday, September 30, is the date of the run-off municipal election in Montevallo. Inquiries revealed that some voters thought it was Monday of this week. There are only two in the run-off race, Red Mahan and Eddie Watson, for Place No. 3 on the Council.

### The New Ford Place

Wooten Motor Co. is making exact connection with their new building and the new Ford car. The new office and show rooms will be ready for use this week and it will be formally initiated by showing the new car on Friday. You will be interested in a visit to Wooten's, therefore, because you will enjoy seeing the new place and the new Ford—Friday of this week.

### The New Chevrolet

Montevallo Motor Co. is also showing the new 1941 Chevrolet this week. They have recently remodeled the Reid Building which was purchased for the Chevrolet place some time ago. The Reid Building was built some years ago as an automobile place. The new owners have given it a new dress throughout, and it shows every phase of the dignity and beauty necessary to qualify in the class of automobile which Chevrolet is showing for 1941.

### Community Chest

The Assembly met Friday night and heard reports of the Chest operation for the past year. It was an impressive picture of a good piece of community work well done. Every person who had a part in the Chest operation will be proud of that part when he or she reads the report that was given to the Assembly. It will be published soon. The Assembly voted to continue the Community Chest operation for another year.

### Our New Streets

Contract has been let by the Town for finishing (black top) of the streets which are included in the public improvement project which has been underway for the past year. Within a few days now we shall have many more blocks of pavement in the residence section of town. This is splendid work that has been done. It is much better than similar work we have seen in other towns. Montevallo is the best paved little town that we know about.

### Strange as it Seems

We have heard of instances where the coroner arrested the sheriff. But chief Gardner has gone one better. This week he arrested the county license inspector for doing business without a license. The cobbler has no shoes. The printer has no stationery. The farmer has no hay. The groceryman has no food. And now of all things the license inspector has no license.

## Dixon Is Elected Chairman Of Southern Governors' Conference

Montgomery, Ala.—Gov. Frank M. Dixon — elected chairman of the Southern Governors' Conference at its closing session on Dauphin Island last week—hurried back to the Capitol to mesh the gears of the Executive and Military Departments in the setting up of Alabama's drafting system.

Near close of the conference the attending chief executives and the representatives of those who were unable to attend drafted a resolution reiterating their stand for more war industries to be located in the South. Their resolution asked that such industries be placed "strictly on the basis of the best interest of the national defense without regard to political subdivisions or community pressure."

At the invitation of Governor Dixon the governors with their wives had gathered for a two-day business - pleasure meeting aboard a small fleet of yachts on the Gulf and Mobile Bay. Business was transacted in buildings on Dauphin Island, at the entrance to the bay.

With regard to the drafting of men into military service, The Military Department estimates places Alabama's eligible number of draftees at approximately 330,000. Perhaps 75 per cent of this number are expected to be disqualified because of physical imperfections, dependencies, and other exemptions such as employment in defense industries.

According to Roland Mushat, the Governor's secretary, approximately 500 members will be named to the 117 draft boards to be set up over the state. Board members, it is presumed from Governor Dixon's statement a few days previously, will be expected to serve without pay. Each board will be assisted by a local physician as examining officer, according to present plans; but so far no provision has been made for payment for this work of cooperating doctors.

The following groups are exempted from the draft according to provisions of the Burke-Wadsworth bill: Officers and men of the Regular Army, Navy, Coast Guard, National Guard, Reserve Officers Corps, Naval Reserve Officers, and employees of the U. S. Public Health Service, Coast and Geodetic Survey, and foreign diplomatic corps.

## Dr. Steckel Elected To Psychology Group

Dr. Minnie L. Steckel, professor of psychology at Alabama College and student counselor, was elected to full membership in the American Psychological Association this month. This transfer was made on September 5 at the meeting of that organization held at the Pennsylvania State College.

She was endorsed by Dr. Forrest A. Kingsbury and Dr. L. L. Thurstone of the department of psychology at the University of Chicago.

Election to membership rests on an examination of the record of publications of the person so honored. The publications must include significant research of a psychological character beyond the doctorate dissertation.

### HIGH SCHOOL GIRLS TO DEMONSTRATE AT FAIR

Sarah Houston and Lorene Carden, 4-H Club girls who are seniors in Montevallo High School, will spend three days at the State Fair

GOV. FRANK M. DIXON

in Birmingham where they will give three 30-minute demonstrations each day on the farm family canning budget. Sarah is president of the 4-H Club.

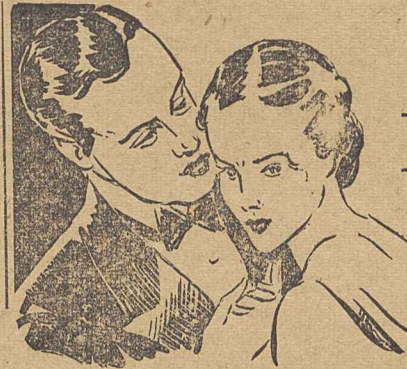

The demonstration will consist of a discussion of the reasons for canning on a budget basis, planning a canning budget for a family of five, and an estimation of the value of a canning budget for a farm family.

### HIGH SCHOOL STUDENT ASSOCIATION MEETS

The Student Association of Montevallo High School has held two meetings to organize and to plan for the year. This organization is made up of fifty-six students, four from each home room, who attend

council meetings and report plans to their home rooms.

This is the second year of the association, and it hopes to promote cooperation and student interest in school-wide activities among the students. Committees are also planning a well rounded recreation program and interesting assemblies.

### ALABAMA HONORED ON BETTER HOMES WEEK

Auburn, Ala.—Alabama has been awarded a special merit award for its outstanding better homes program during "Better Homes Week" early this year.

"We are happy to announce to you that the Alabama Better Homes Committee has been granted a special merit award for the results of its participation in the 1940 Better Homes Campaign," says a letter from headquarters of Better Homes in America to Etna McGaugh, state home demonstration agent, and Nell Pickens, home management specialist, who were in charge of the Alabama campaign.

Alabama counties receiving honorable mention were Cherokee, Jackson, Lowndes, Monroe and Shelby.

### Baptist Missionary Society Meets

The Baptist Missionary Society held its regular program and business meeting Monday afternoon, September 23, at the church.

Circle No. 1 was in charge of the program which was led by Mrs. Cooper Shaw. The topic was "To the Jew First." Mrs. F. H. Frost led the devotional. Others on the program were Mesdames J. R. Lewis, M. P. Jeter, W. F. Tidwell, F. P. Givhan, J. P. Thomas, and J. L. Bridges.

A short business meeting followed the program.

Members present were Mesdames L. C. Horn, R. A. Reid, M. P. Jeter, N. R. Phillips, Nannie Robson, J. I. Riddle, J. P. Thomas, J. R. Lewis, F. P. Givhan, W. F. Tidwell, F. H. Frost, A. J. Woods, Mary L. Hare, Quintilla Nix, C. L. Meroney, Della Mulkey, J. L. Bridges, Kilpatrick, Cooper Shaw, and Miss Mae Wood, and one visitor, Dr. Fred B. Pearson.

### MRS. KENNERLY IS HOSTESS TO D. A. R.

Mrs. W. J. Kennerly was hostess to the David Lindsay Chapter, Daughters of the American Revolution, for the first meeting of the year, on the night of September 23. The regent, Mrs. H. D. LeBaron, presided over the business meeting. The program for the year was briefly outlined by Mrs. C. G. Sharp, program chairman.

In observance of Constitution Day, September 17, Dr. Hallie Farmer very ably discussed the constitution, pointing out to her hearers the many and varied interpretations which may be placed upon it.

The meeting was concluded with a delightful social hour.

### Christian Society Holds Business Meeting

The first business meeting of the newly organized Women's Society of Christian Service was held Monday afternoon, September 23, in the ladies' parlor of the church. Preceding the regular meeting the president, Mrs. J. P. Kelly, held an executive meeting with the officials in an adjoining room.

Genuine enthusiasm in the new organization was manifested by the presence of twenty-five members. Three visitors from the Dogwood organization were present.

Mrs. J. R. Gilbert had charge of

### MARKETING QUOTA REFERENDUM DEC. 7

Southern cotton farmers will vote in a referendum on December 7 on whether or not they want cotton marketing quotas during 1941.

Announcement of this is made by Claude Wickard, secretary of agriculture, who also announces that the 1941 cotton quota will be 12,000,000 bales if quotas are approved by two-thirds of the growers in the referendum.

The 1941 quota is the same as established and approved on the 1938, 1939, and 1940 crops. This quota permits the planting of about 27,900,000 acres to cotton.

Under the 1938 AAA act, establishment of quotas is mandatory when the total cotton supply reaches 107 per cent of "normal." On August 1, the total supply of cotton was 24,900,000 bales, or 137 per cent of the "normal" supply of 18,200,000. "Cotton farmers have need of marketing quotas for the 1941 marketing year more than ever before," Wickard said in announcing the date of referendum and 1941 marketing quota. "War conditions have decreased, rather than increased, our foreign markets for cotton. Although the position of cotton in world trade is difficult, we find satisfaction in the fact that we are increasing our use of cotton in our own country through such programs as mattress making and other new uses."

### AAA RULES REQUIRE THAT LEGUMES BE PHOSPHATED

Auburn, Ala.—Alabama AAA specifications for winter legumes require them to be "fertilized with at least 300 pounds of 16 per cent superphosphate of 500 pounds of basic slag per acre unless the land has been well fertilized for the previous crop." In fields where it is known that there is a deficiency of lime, lime must be applied.

### TRENCH SILO WALLS SHOULD BE DAMPENED

Auburn, Ala.—F. W. Burns, extension dairyman, is advising Alabama farmers to wet the walls of trench silos as they are filled. This should be done to keep the silage from spoiling.

"Also be sure to cover silage with from 6 inches to one foot of dirt to exclude air," he says. "If possible, wet this dirt after covering the ensilage."

the devotional period, assisted by Mrs. J. H. Henning and Mrs. W. P. McConaughy.

Matters of business concerning the organization were attended to under the direction of the president.
